2. The draft will be taken into consideration on the 1st November 1940, and any objection or suggestion received by the undersigned through the District Magistrate and the Divisional Commissioner before that date will be considered:—

Draft by-laws for the licensing of dogs and prevention and control of rabies.

1. Every owner or keeper or person otherwise in charge of a dog ordinarily staying at Darjeeling or brought in from outside to stay there temporarily but for more than 15 days shall get his dog registered in the municipal register kept for the purpose by paying a license fee which shall be Re. 1 per year per dog for dogs ordinarily staying at Darjeeling, and four annas per quarter per dog for the dogs staying there temporarily but for more than 15 days, and take from the municipal office a metal token bearing the registered number which shall be firmly attached to the collar which shall be put round the neck of the dog so registered and licensed:

Provided that a dog not more than 3 months old shall not be required to wear a token or to be registered but a collar shall be put round its neck as soon as it is fit to wear one:

Provided also that within one month from the date on which a dog has become liable for registration the owner or the keeper of the dog or the person otherwise in charge thereof shall apply for its registration.

Every application for registration of a dog shall contain the following particulars:—

(1) Description (such as sub-species or kind, colour, sex, age, name, pedigree, if any) of the dog.
(2) The name and address of the owner.
(3) Name and address of the keeper or person otherwise in charge, if there is one.
(4) Whether the owner, keeper or person otherwise in charge, is a permanent resident or a visitor.

In case of accidental loss of a token a duplicate on application will be supplied to the owner, keeper or person otherwise in charge, of the dog on payment of four annas which shall be the price of a token or a metal disc containing the registered number of the dog, over and above the license fee prescribed herein.

2. The owners or keepers or persons otherwise in charge of dogs staying temporarily but for more than 15 days within the municipal limits of Darjeeling shall apply to the Secretary of the Darjeeling Municipality within 7 days of the arrival of their dogs within the said municipal limits for registration and tokens of dogs and shall take and use the tokens as soon as they will be available.

3. The owner or keeper or person otherwise in charge of dogs ordinarily staying within the municipal limits of Darjeeling shall apply to the Secretary of the Darjeeling Municipality for registration of each such dog and for renewal of registration every year thereafter. The license fees for registration or renewal of registration shall be one rupee per dog for one year commencing on the 1st day of April and there shall be no proportionate reduction of such fee if the original registration or its renewal covers only a part of the year.

4. The license fee for dogs staying temporarily but for more than 15 days within the municipal limits of Darjeeling shall be four annas only which is to cover only one quarter of the financial year or a part of the quarter from the date of his application for registration irrespective of the dates of arrival and departure of the dog at or from Darjeeling.

5. A stray dog or an unregistered dog not bearing a token attached to its collar while found in public places or public roads within the Darjeeling Municipality without an owner, keeper or person otherwise in charge shall be liable to seizure by the municipality's "dog-seizer" and confinement in the municipal kennel or dog pound and shall be made over to the owner or bona fide custodian on proof of his ownership or custodianship on his payment of poundage fee at annas 8 per dog per day and also on payment of his license-fee and token charges for which the necessary tokens will be then supplied, provided that such dog is claimed and taken back by the owner or custodian within seven days of the date of its seizure. If the dog is not so claimed and taken back, the Commissioners of the Municipality shall be at liberty to dispose of the said stray or unregistered dog as they will think fit, either by destruction or sale or gift of the dog after the date specified in this behalf in a notice published under section 464A of the Bengal Municipal Act, 1932, and the amount realised from the sale shall be credited to the municipal fund.

6. In case of unregistered dogs without tokens found in the company of the owners or custodians frequenting any public place or public road within the Municipality, such owner or custodian shall be bound to supply his name and address to the municipal "dog-seizer" and write them in the book to be produced by such "dog-seizer" and if the owner or the custodian of any such unregistered dog without token is a visitor to Darjeeling, he shall also write the date of arrival of the dog at Darjeeling and the period of his intended stay there with the dog, and the "dog-seizer" shall report accordingly to the Secretary of

the Municipality who according to the circumstances of each case shall direct suitable action to be taken in the matter in accordance with the order of the Commissioners.

7. The Commissioners through their "dog-seizer" or any body deputed in this behalf will be at liberty to seize, confine, take into custody, treat medically, inoculate and if necessary destroy any dog suffering from or suspected to be suffering from rabies or any loathsome disease, or bitten by a rabid dog or rabid jackal and if the owner or keeper or person otherwise in charge of the dog offers any resistance or causes any resistance to be given by any person such owner, keeper, person in charge or other person shall be liable to a fine of Rs. 50.

8. The owners or keepers or persons otherwise in charge of dogs within the municipal limits of Darjeeling and also the veterinary surgeon in charge of the treatment of dogs within that Municipality shall report to the Secretary of the Municipality any case or suspected case of rabies or any loathsome disease of the dogs in their care, possession or treatment within 24 hours of its detection and shall confine, segregate or muzzle such dogs or take such order with them as is calculated to prevent the spread of infection, pending their treatment or destruction as will be deemed necessary by the Commissioners.

9. Such owners, keepers or persons otherwise in charge, shall allow examination of their dogs by the person or persons to be appointed for the purpose by the Commissioners in case they are suffering or suspected to be suffering from rabies or any other loathsome disease.

10. The owners, keepers or persons otherwise in charge, shall muzzle properly or take such order with their dogs as the Commissioners may, by a notification issued in this behalf, from time to time, require.

11. After a date specified in this behalf in a notice published under section 464A of the Bengal Municipal Act, 1932, the Commissioners may sell or give away or make such orders as they deem fit with regard to unclaimed stray dogs free from any disease found in any public place or public road within the municipality without a token attached to its collar, in consultation with the local Society for the Prevention of Cruelty to Animals, if their destruction is deemed undesirable for humane, utilitarian or other reasons.

12. By-laws 1 to 6 shall not apply to dogs brought to Darjeeling for bonafide dog-shows or with visitors or temporary sojourners staying at Darjeeling for not more than 15 days.

13. Persons bitten by any dog, jackal or other animals suffering or suspected to be suffering from rabies, shall forthwith report the fact to the Commissioners in such details as may be required by the Commissioners.

14. The penalty for infringement of by-laws 1, 2, 3, 6, 8, 9, 10 and 13 shall be a fine not exceeding the sum of Rs. 25, Rs. 10, Rs. 25, Rs. 10, Rs. 25, Rs. 15, Rs. 20 and Rs. 10, respectively.

(*3*) Where a calling-up notice has been duly served on any person, the competent authority may, at any time while that person remains liable under this Act to be called up for national service, cancel the notice and cause to be served on him a further notice varying the original notice.

(*4*) A calling-up notice served on any person shall cease to have effect if, before the date on which he is thereby required to present himself, he ceases to be liable under this Act to be called up for national service.

(*5*) Such travelling and other allowances as may be prescribed shall be paid by the competent authority to any person required to present himself in accordance with a calling-up notice.

6. Section 91A of the said Act inserted by section 16 of the Bengal Cess (Amendment) Act, 1910 shall be omitted. Ben. Act IV of 1910.

STATEMENT OF OBJECTS AND REASONS.

There is no particular method prescribed in the Cess Act, 1880 for assessing coal-mines, but section 72 of the Act provides that all mines are to be assessed on the average of the net profits of the mine for the last three years for which accounts have been made up The manner in which the net profits are to be determined has been the cause of constant friction between the colliery owners and the revenue authorities. It is now proposed to make the assessment on annual net raisings of coal-mines which will be calculated at 95 *per centum* on the average of the annual output from such colliery for the last three years.

It is also proposed to provide that the whole cess due in respect of the colliery shall be paid by the occupier. As royalty-receivers are liable to pay cess on the royalty received and as the entire cess will be paid by the occupier, it is proposed to give power to the latter to deduct from the royalty to be paid by him, the royalty-receiver's share of the cess. Similar provision for deduction of the share of the cess-payable by a superior right is also made in respect of each of a series of royalty-receivers, where in existence.

It is further proposed to repeal section 91A of the Act which is now unnecessary inasmuch as collection is no longer made on commission basis.

No. 2024F.—20th August 1940.—The following corrections, which have been authorised, are published for general information:—

The Fundamental and Subsidiary Rules, 1st Edition (Reprint), 1929.

Page 121—Fundamental Rule 70.—Under the rule *insert* the following as Audit Instruction under clause (*a*) (*iii*):—

"The expression 'on the termination of his leave' in clause (*a*) (*iii*) of F. R. 70 means

'on the termination of the period of leave as determined by his recall as opposed to the whole of the leave he was originally granted'. The effect of this interpretation will be to make the same leave salary admissible for the period of transit in India as would be admissible had the return to duty been voluntary and the period of voyage been leave proper and the period of transit in India been leave proper or joining time under F. R. 105, as the case may be".

Note.—The Government of Bengal have adopted this instruction for persons under their rule-making control.

The Bengal Financial Rules, 1st Edition (Reprint), 1930.

Pages 72-73—Rule 226.—Substitute the following for rule 226 (*b*):—

"(*b*) Single railway fares or the actual necessary cost of travelling may be allowed by the Divisional Officer for journeys performed (1) within the jurisdiction of his Local Government or to and from a district of Foreign State or Settlement adjoining his division, and (2) in the interest of the work on which the men are employed or in connection with any other public work provided they can carry out such work without detriment to their main functions."

Pages 258-259—F. R. Appendix 9.—Delete the brackets and the words "Secretariat Book Depot" against item "46. Packer" in Group B-II.

Page 68—Rule 214.—Substitute the following for rule 214, the notes thereunder remaining unaltered:—

"Rule 214. Contractors' bill may be prepared by the Sectional Officer in one of the forms prescribed in Rules 206 to 213 applicable to the case, after the measurements are entered and the contents or area calculated and recorded in the measurement book. The bill together with the measurement book should then be sent to the Subdivisional Officer for his scrutiny and check. The entries in the measurement book relating to the description and quantities of work or supplies should be scrutinized by the Subdivisional Officer. The rates allowed both in the abstract of measurements and the bill itself should be checked by the Subdivisional Officer. Full rates as per agreement, catalogue, indent or other order should be allowed only if the quality of work done or supplies made is up to the stipulated specification. When the work or supplies fall short of that standard and under the agreement it is permissible to make a final payment if the contract is determined, or an on account payment if the contract is to run on and/or if payment is made for an item of work which is not complete at the time that measurements are being taken, only such a fraction of the full rate should be allowed as is considered reasonable, with due regard to the work remaining to be done and the general terms of the agreement. The Subdivisional Officer will be responsible for seeing that the rates correctly represent the value of work done particularly in the case of additional items of work not covered by the agreement or items acceptable but not up to specification. In respect of items of work not provided for in the accepted tender the rates should be determined by the Subdivisional Officer with the consent of the contractor and approval of the Executive Engineer, provided that approval of the Executive Engineer will not be necessary in cases in which the original tender was accepted by the Subdivisional Officer under powers delegated to him, but in order to enable the Executive Engineer to examine the rate finally accepted by the Subdivisional Officer, the latter should communicate the analysis of rates to the Executive Engineer while forwarding copies of accepted tenders and rates to him. Whenever the total cost of the additional items of work not included in the tender exceed 5 per cent. of the sanctioned estimate, there should invariably be a supplementary tender to cover the additional items".

Pages 68-69—Rule 214.—Insert the following as "Note 7" below this rule:—

"The calculation of 'contents' or 'area' in the measurement book should be checked by the Divisional Office under the supervision of the Divisional Accountant in cases in which the bills are paid by the Divisional Officer and by the Subdivisional Office under the supervision of the Subdivisional Officer in cases in which he is empowered to pay the bills".

Page 69—Rule 215.—Substitute the following for rule 215, the notes thereunder remaining unaltered:—

"Rule 215. Before signing the bill the Subdivisional Officer should compare the quantities in the bill with those recorded in the measurement book and see that all the rates are correctly entered. When the bill is on a running account, it should be compared with the previous bill. The memorandum of payments should then be made up, any recoveries which should be made on account of the work or supply or on other accounts being shown therein. If the Subdivisional Officer is empowered to pay the bill, he should, after all calculations in the bill have been checked arithmetically under his supervision, record a formal pay order specifying, both in words and figures, only the net amount payable, though the payee should be required to acknowledge in his acquittance the gross amount payable inclusive of the recoveries made from the bill".

Draft Rules for the Conduct of Elections.

Definitions.

1. In these rules, unless there is anything repugnant in the subject or context,—

(*a*) "the Act" means the Calcutta Municipal Act, 1923 (Bengal Act III of 1923);

(*b*) "the Election Officer" means such officer as the Provincial Government may by notification in the *Calcutta Gazette* appoint to perform the functions of the Election Officer under these rules.

Appointment of Returning Officers.

2. (*1*) The Election Officer may appoint as many Returning Officers as he thinks fit, provided that there shall not be more than one Returning Officer for the same constituency and provided also that no person shall be appointed as the Returning Officer of any constituency of which he is an elector.

(*2*) The Election Officer may at any time, for reasons to be recorded in writing, remove any Returning Officer appointed by him and appoint another in his place, and may also appoint a substitute to act as Returning Officer during any temporary disability of the Returning Officer.

Nominations

3. The Provincial Government shall appoint—

(*a*) a date not less than one month before the date fixed for the general elections under sub-section (*3*) of section 45 of the Act by which the nomination of candidates shall be made; and

(*b*) a further date not later than the seventh day after the first mentioned date for the scrutiny of nominations.

4. Nominations shall be made by means of a nomination paper in Form I annexed to these rules copies of which will be obtainable at the Central Municipal Office. Each candidate shall be nominated by separate nomination paper.

5. On or before the date so appointed for the nomination of candidates, each candidate shall either in person or by his proposer or by his seconder or by his election agent, between the hours of 12 o'clock noon and 5 o'clock in the afternoon, deliver to the Returning Officer or to such other person as may be authorised in this behalf a nomination paper completed in Form I annexed to these rules and subscribed by the candidate himself as assenting to the nomination and by two persons as proposer and seconder whose names are registered on the electoral roll of the constituency for which the candidate is nominated:

Provided that a nomination paper signed by a duly authorised attorney on behalf of the candidate shall, for the purpose of this rule, be held to be signed by the candidate himself as assenting to his nomination.

6. Any person whose name is registered on the electoral roll of the constituency, and who is not subject to any disability as set forth in section 22 of the Act may subscribe in all, whether as proposer or seconder, as many nomination papers as there are vacancies to be filled.

7. (*1*) Every nomination paper delivered under rule 5 shall be accompanied by a declaration in writing subscribed by the candidate in the manner laid down in sub-section (*2*) of section 27 of the Act.

(*2*) The nomination paper shall be accompanied by another declaration that the candidate has selected a symbol from the list specified in Schedule A to these rules; no candidate shall be deemed to be duly nominated unless such declaration is delivered along with the nomination paper.

8. Any nomination paper which is not received before 5 o'clock in the afternoon on the date appointed by the Provincial Government under clause (*a*) of rule 3 shall be rejected.

9. On the presentation of a nomination paper, the Returning Officer shall satisfy himself that the names and numbers on the electoral roll of the candidate and his proposer and seconder as entered in the nomination paper are the same as those entered in the electoral roll. Where necessary he shall direct that the former be amended so as to be in accordance with the latter.

It shall be also competent for the Returning Officer to alter or amend any entry in the nomination paper presented to him with a view to ensuring accurate and adequate publication under rule 10 of the names of candidates and of persons who have subscribed the nomination paper as proposer and seconder.

10. The Returning Officer or other person authorised shall, on receiving a nomination paper under rule 5, inform the person or persons delivering the same of the date, hour and place appointed for the scrutiny of nomination, and shall enter in the nomination paper its serial number and shall sign thereon a certificate stating the date on which and the hour at which the nomination paper has been delivered to him; and shall, as soon as may be thereafter, cause to be affixed in some conspicuous place in his office a notice of the nomination containing descriptions, similar to those contained in the nomination paper, both of the candidate and of the persons who have subscribed the nomination paper as proposer and seconder.

11. A proposer or a seconder once having signed a nomination paper shall not be allowed to withdraw.

12. A candidate may withdraw his candidature under sub-section (*3*) of section 27 of the Act by notice in writing subscribed by him and delivered to the Election Officer. The Election Officer shall on receiving such notice of withdrawal, as soon as may be, cause such notice to be affixed in some conspicuous place in his office and in the office of the Returning Officer of the constituency in regard to which the withdrawal has taken place.

If any candidate withdraws his candidature within three days of the date of election, the name of such candidate shall be deemed to be omitted from the ballot paper notwithstanding the fact that his name is shown on the ballot paper.

Scrutiny of Nominations.

13. On the date appointed by the Provincial Government under rule 3 for the scrutiny of nomination, the candidates, their election agents, every proposer and every seconder of each candidate, and one other person duly authorised in writing by each candidate, but no other person, may attend at such time and place as the Election Officer may appoint, and the Returning Officer shall give them all reasonable facilities for examining the nomination papers of all candidates which have been delivered within the time.

14. (*1*) The Returning Officer shall then examine the nomination papers and shall decide all objections which may be made to any nomination, and may, either on such objection or on his own motion, after such summary inquiry, if any, as he thinks necessary, refuse any nomination on any of the following grounds:—

(*i*) that the candidate is ineligible for election in accordance with the provisions of the Act, or

(*ii*) that the proposer or seconder is disqualified from subscribing the nomination paper under rule 6, or

(*iii*) that there has been any failure to comply with any of the provisions of the Act or of these rules relating to the nomination of candidates, or any failure to comply with the provisions of the Act relating to the deposit to be made by candidates under sub-section (*3*) of section 27 of the Act, or

(*iv*) that the candidate or the proposer or seconder is not identical with the person whose electoral number is given in the nomination paper as the number of such candidate, proposer or seconder, as the case may be, or

(*v*) that the signature of the candidate or the proposer or seconder is not genuine.

(*2*) For the purposes of this rule—

(*a*) an entry in the electoral roll of any constituency shall be conclusive evidence of the right of any elector named in that entry to stand for election or to subscribe a nomination paper as the case may be, subject to the disqualifications referred to in section 22 of the Act,

(*b*) where a person has subscribed whether as proposer or seconder a larger number of nomination papers than there are vacancies to be filled, those of the papers so subscribed which have been first received, up to the number of vacancies to be filled, shall be deemed to be valid.

(*3*) Nothing contained in clause (*ii*), clause (*iii*), clause (*iv*) or clause (*v*) of sub-rule (*1*) shall be deemed to authorise the refusal of the nomination of any candidate on the ground of any irregularity in respect of a nomination paper, if the candidate has been duly nominated by means of another nomination paper in respect of which no irregularity has been committed.

(*4*) The Returning Officer shall not refuse any nomination paper on the ground of a slight technical defect such as the wrong spelling of a name.

15. (*1*) The Returning Officer shall endorse on each nomination paper his decision accepting or rejecting the same, and if the nomination paper is rejected, shall record in writing a brief statement of his reasons for such rejection.

(*2*) The scrutiny shall be completed on the day appointed in this behalf, and no adjournment of the proceedings shall be allowed.

16. (*1*) On completion of the scrutiny of nominations, the Returning Officer shall forthwith examine symbols selected by the candidates and if such symbols are found to conflict with each other, he shall allocate the symbols in conformity as far as possible with the wishes of the candidates and if necessary by lot, and his decision in this respect shall be final. Each candidate or his election agent shall at the same time be informed of the symbol assigned to such candidate and shall be given a specimen thereof. He shall then prepare a list of valid nominations indicating therein the symbol assigned to each candidate and shall cause the said list to be affixed in some conspicuous place in his office.

(*2*) In the case of uncontested returns the Returning Officer shall report the name or names of the candidate or candidates whom he declares to be elected to the Executive Officer and to the Election Officer, and thereupon the Election Officer shall after informing the candidate or candidates, cause the name or names of the candidate or candidates elected to be published in the *Calcutta Gazette*.

17. If the number of duly nominated candidates is greater than the number of vacancies the Returning Officer shall forthwith publish in the local newspapers, and in such other manner as the Election Officer may prescribe, and in such places in the constituency as he may consider necessary, the names of the candidates as given in the nomination papers in alphabetical order in English and also the symbol assigned to each candidate.

In the case of a constituency in which a seat is reserved for members of the Scheduled Castes, the Returning Officer shall in publishing the names of duly nominated candidates under this rule indicate by special mark, the names of candidates who belong to the Scheduled Castes.

18. (*1*) If a candidate by whom or on whose behalf the deposit referred to in sub-section (*3*) of section 27, of the Act, has been made withdraws his candidature more than seven days before the

date fixed for the election, or if the nomination of any such candidate is refused, the deposit shall be returned to the person by whom it was made; and if any candidate dies before the commencement of the poll, any such deposit, if made by him, shall be returned to his legal representatives or, if not made by the candidate, shall be returned to the persons by whom it was made.

(2) The deposit made in respect of a candidate shall, if it is not forfeited be returned to the candidate or to the person who has made the deposit on his behalf as soon as may be after the publication of the result of the election.

19. If a candidate who has been duly nominated dies after the date appointed for the scrutiny of nominations and before the date appointed for the taking of a poll, the Returning Officer shall, upon being satisfied of the fact of the death of the candidate countermand the poll and report the fact to the Election Officer, and all proceedings with reference to the election shall be commenced anew in all respects as if for a new election:

Provided that no fresh nomination or deposit shall be necessary in the case of a candidate who stood nominated at the time of the countermanding of the poll.

Polling.

20. The Election Officer shall appoint the hour at which the poll shall commence and the hour at which it shall close on the date appointed by the Provincial Government for the poll. The hours so fixed shall be published by notification at least three days before the election in the local newspapers and in such other manner as the Election Officer may direct.

21. (1) The Election Officer shall select for each constituency as many polling stations as he thinks necessary and shall publish at least three days before the date of polling in such manner as he may consider necessary a list showing the polling stations so selected and the polling areas for which they have respectively been selected.

(2) The Election Officer shall appoint a Presiding Officer for each polling station and such other persons (hereinafter referred to as polling officers) to assist the Presiding Officer as he thinks necessary. The Election Officer may appoint additional polling officers during an election, if necessary.

(3) If the Presiding Officer, owing to illness or other unavoidable cause, is obliged to absent himself from the polling station, his functions shall be performed by such polling officer as may be authorised by the Election Officer to perform such functions, during any such absence; and the expression "Presiding Officer" in these rules shall be deemed to include a polling officer so authorised.

(4) The Election Officer shall make separate arrangement for the recording of votes by women electors provided that any woman elector may record her vote at the men's booth by notifying in writing to the Election Officer, at least four days before the date of polling, her intention of so doing.

22. (1) The Presiding Officer shall keep order at the polling station, shall see that the election is fairly conducted, shall regulate the number of electors to be admitted at one time, and shall exclude all other persons except:—

(a) the polling officers, the candidates, their election agents and for each polling officer in the case of polling booths for men one agent and in the case of polling booths for females two female agents of each candidate (each such agent being hereinafter referred to as the polling agent) to be appointed in writing by the candidate and authorised in this behalf by the Election Officer;

(b) the police or other public servants on duty; and

(c) such other person as the Presiding Officer may from time to time admit for the purpose of identifying electors:

Provided that unless for special reasons the Presiding Officer otherwise directs, no male shall be admitted inside the polling station set apart under sub-rule (4) of rule 21 for the recording of votes by women electors.

(2) The Presiding Officer shall allow the polling agent of a candidate at the polling station to be relieved by another polling agent also duly appointed in writing by the candidate and authorized in this behalf by the Election Officer.

(3) The Presiding Officer shall close the polling station at the hour appointed in that behalf by the Election Officer under these rules so as to prevent the admission thereto of any elector after that hour, provided that all electors present at the polling station before it is so closed shall be entitled to have their votes recorded.

23. If any person misconducts himself at the polling station or fails to obey the lawful orders of the Presiding Officer he may immediately, by order of the Presiding Officer, be removed from the polling station by any police officer or by any other person authorised in writing by the Presiding Officer to remove him; and the person so removed shall not, unless with the permisison of the Presiding Officer, be allowed again to enter the polling station during the day:

Provided that this power shall not be exercised so as to prevent any elector who is otherwise entitled to vote at any polling station from having an opportunity of voting at such station.

24. Each polling station shall be provided with such number of compartments as the Election Officer thinks necessary, in order to enable electors to mark ballot papers as quickly as possible and screened from observation.

25. (1) The Election Officer shall provide at each polling station materials sufficient for the purpose of enabling electors to mark the ballot papers, instruments for stamping the official mark on such papers, as many ballot boxes as may be necessary, and copies of the electoral roll or of such part thereof as contains the names of the electors entitled to vote at such station.

(2) The official mark shall be kept secret.

26. Outside and inside each such polling station there shall be displayed on boards to be provided for the purpose by the Returning Officer, in bold and clear print, the name of each candidate in English, Bengali and/or any other vernacular language as may be decided by the Returning Officer, the name of the symbol assigned to him and the symbol itself.

27. Every ballot box shall be so constructed that ballot papers can be introduced therein but cannot be withdrawn therefrom without the box being unlocked. The Presiding Officer shall immediately before the commencement of the poll at the polling station, show each ballot box to be used at the poll, to such persons as may be present in such station, so that they may see that it is empty, and shall then lock it up and place his seal upon it in such manner as to prevent its being opened without breaking such seal, and shall place it in his view for the receipt of ballot papers and keep it so locked and sealed.

28. (1) Immediately before a ballot paper is delivered to an elector, it shall be marked on the back with the official mark, and the number, name and address of the elector as stated in the electoral roll shall be called out, and the number of the elector shall be entered on the counterfoil, and a mark shall be placed in a copy of the electoral roll against the number of the elector, to denote that he has received a ballot paper, but without showing the particular ballot paper which he has received. The counterfoil shall bear the name of the constituency and the name or distinctive number of the polling station shall be entered thereon by either the Presiding Officer or the polling officer.

(2) In deciding the right of a person to obtain a ballot paper for the purpose of voting at an election, the Presiding Officer may interpret an entry in the electoral roll so as to overlook merely clerical or printing errors but shall record his reasons for doing so, and the interpretation he has adopted, on the counterfoil of the ballot paper issued to such person.

29. The elector on receiving the ballot paper, shall forthwith proceed to one of the screened compartments in the polling station set apart for marking ballot papers by electors, and there mark the symbol or symbols printed on the ballot paper against the name of the candidate or candidates for whom he intends to vote in accordance with the instructions set out on the ballot paper, and fold, it up, so as to conceal his vote, and shall put his ballot paper, so folded up, into the ballot box. Every elector shall vote without undue delay and shall quit the polling station as soon as he has put his ballot paper into the ballot box.

30. If the elector, owing to illiteracy or physical or other disability, is unable to read the symbols on a ballot paper or to make a mark thereon, the Presiding Officer or polling officer shall mark the vote in the ballot paper according to the direction of the elector. The elector shall then himself, or with the assistance of the Presiding Officer, put the ballot paper folded up into the ballot box.

31. At any time before a ballot paper is delivered to an elector, the Presiding Officer or polling officer may, of his own accord, if he has reason to doubt the identity of the elector or his right to vote at such station, and shall, if so required by a candidate or his election agent or polling agent, put to the elector the following questions:—

(1) Are you the person enrolled as follows (reading the whole entry from the roll)? and,

(2) Have you already voted at the present election in this constituency as such voter?

and the elector shall not be supplied with a ballot paper if he refuses to answer any one of the questions and unless he answers the first question in the affirmative and the second question in the negative.

32. The ballot paper, in the case of a constituency in which a seat is reserved for members of the Scheduled Castes, shall be in Form II annexed to these rules and in the case of other constituencies shall be in Form III annexed to these rules. The ballot paper shall contain the names of the candidates arranged alphabetically in English together with the symbols assigned to each candidate printed against the name of each. In the case of a constituency in which a seat is reserved for members of the Scheduled Castes the names of candidates belonging to the Scheduled Castes shall be indicated by special mark on the ballot paper. The names and the instructions in the form may be printed in such vernaculars as the Election Officer thinks fit having regard to each constituency. The ballot papers shall be serially numbered, the serial number being printed on the face of the counterfoil and on the back of the ballot paper.

33. If a person representing himself to be a particular elector named on the electoral roll applies for a ballot paper after another person has voted as such elector, the applicant shall, after duly answering such questions as the Presiding Officer may ask, be entitled to mark a ballot paper in the same manner as any other elector. Such ballot paper (hereinafter referred to as a "tendered ballot paper") shall be of a colour different from the other ballot papers, and instead of being put into the ballot box, shall be given to the Presiding Officer and endorsed by him with the name of the elector and his number on the electoral roll and the name of the electoral area to which the roll relates and shall be set aside in a separate packet and shall not be counted by the Returning Officer. The name of the elector and his number in the electoral roll and the name or distinctive number of the polling station to which the roll relates shall be entered in a list in Form IV annexed to these rules, which shall bear the heading "tendered votes list." The person tendering such ballot paper shall sign his name and address thereon or affix his thumb impression against the entry in that list.

34. (*1*) If any polling agent declares in writing and undertakes to prove, or if the Presiding Officer for any reason is clearly of opinion, that any person by applying for a ballot paper has committed the offence of personation, the Presiding Officer shall require such person to enter in the list of challenged votes (which shall be in Form V annexed to these rules) his name and address, or if he is unable to write, to affix his thumb impression thereto. If such person refuses to comply with such requisition he shall not be permitted to vote, but if he does so comply, he shall be allowed to vote, after he has been warned of the penalty for personation, provided that he answers the question mentioned in rule 31 in the manner laid down therein.

(*2*) The Presiding Officer shall in every case, whether or not the person is allowed to vote, make a note of the circumstances in the list of challenged votes.

35. A voter who has inadvertently dealt with his ballot paper in such a manner that it cannot conveniently be used as a ballot paper may, on delivering it to the Presiding Officer and satisfying him of the inadvertence, obtain another ballot paper in place of the spoilt paper, and the latter shall together with its counterfoil, be marked as cancelled by the Presiding Officer.

36. A Presiding Officer, polling officer, election agent or polling agent who being an elector of any constituency is duly authorised or appointed for duty at a polling station at which he is not entitled to vote may apply to the Returning Officer of the constituency for a certificate entitling him to vote at that polling station but at no other. On the production of such certificate he shall be allowed to vote at that polling station. The certificate shall be in Form VI annexed to these rules and a copy thereof shall be sent by the Returning Officer to the Presiding Officer of the polling station at which the elector would otherwise have been entitled to vote.

37. (*1*) A ballot paper shall be issued in the same manner as to any other elector to the person to whom a certificate has been granted under rule 36 on production of such certificate:

Provided that the Presiding Officer or the polling officer shall under rule 28 enter on the counterfoil of the ballot paper not only the name or distinctive number of the polling station at which the vote is recorded but also the name of the polling station at which such person would otherwise have been entitled to vote.

(*2*) The ballot papers issued under sub-rule (*1*) shall be dealt with in the folowing manner:—

(*a*) If the polling station at which the person is authorised or appointed for duty is in the same constituency as the one in which he is entitled to vote, then the provisions contained in rule 29 shall apply. The certificate produced under sub-rule (*1*) shall be filed by the Presiding Officer.

(*b*) If the polling station at which the person is authorised or appointed for duty is not in the same constituency as the one in which he is entitled to vote, then before a ballot paper is issued to such person under sub-rule (*1*) the Presiding Officer shall score out the names of candidates and the symbols assigned to them on the ballot paper and insert in it the names of the candidates for the constituency at which such person is entitled to vote indicating therein in the case where such constituency is one in which a seat is reserved for members of the Scheduled Castes the names of candidates belonging to those castes by special mark, and shall also revise the instructions printed on the ballot paper in such manner as may be necessary. The person shall then go inside the polling compartment and there mark on the ballot paper against the name of the candidate or candidates for whom he intends to vote in accordance with the instructions set out on the ballot paper, and fold it up so as to conceal his vote, and shall put his ballot paper so folded up in an envelope to be supplied to him by the Presiding Officer or the polling officer. The envelope shall then in the case where such person is not the Presiding Officer be handed over to the Presiding Officer. The Presiding Officer shall then seal up the envelope and keep it with him until the close of the poll. The Presiding Officer shall despatch the envelope together with the certificate produced under sub-rule (*1*) to the Returning Officer concerned as soon as practicable after the close of the poll.

38. The Presiding Officer shall, as soon as practicable after the close of the poll at a polling station, in the presence of any candidates or their election agents or polling agents who may be present, make up into separate parcels and seal with his own seal and the seal of such candidates or agents as may desire to affix their seal—

(*1*) each ballot box in use at each station unopened but with the key attached and the slit in the lid sealed up;

(*2*) the unused ballot papers;

(*3*) the tendered ballot papers;

(*4*) the spoilt ballot papers;

(*5*) the marked copy of the electoral roll and any certificates filed by the Presiding Officer under rule 37;

(*6*) the counterfoils of the ballot papers;

(7) the tendered votes list; and

(8) the list of challenged votes;

and shall deliver such packets or cause them to be delivered to the Returning Officer.

39. The packets shall be accompanied by a statement in Form VII annexed to these rules made by the Presiding Officer, showing the number of ballot papers entrusted to him, and accounting for them under the heads of ballot papers in the ballot box, unused, spoilt, and tendered ballot papers, and ballot papers dealt with under rule 37.

Scrutiny of votes.

40. The Election Officer shall appoint a date which shall be not later than a week after the polling day for the counting of votes. The Returning Officer shall fix the place and time at which the votes shall be counted on the date so appointed and shall give notice of such date, time and place in writing to all candidates and election agents.

41. (1) No person shall be allowed to be present at the counting of the votes except the Returning Officer and such persons as he may appoint to assist him in counting the votes, and such other persons as have a right to be present under sub-section (5) of section 29 of the Act.

(2) No person shall be appointed to assist in counting the votes, who has been employed by or on behalf of any candidate for any purpose whatsoever connected with the election.

42. On the day and at the time appointed under rule 40 the Returning Officer shall proceed as follows:—

(a) The ballot box or boxes relating to each polling station shall be opened one after another, and the Returning Officer shall take out the papers therefrom, count them or cause them to be counted, and record the number thereof in a statement. The Returning Officer shall then open the envelopes, if any, despatched to him under clause (b) of sub-rule (2) of rule 37, take out the ballot papers therefrom and record the number of such ballot papers in the said statement. Such statement shall not be shown to any candidate or agent.

(b) The Returning Officer shall then mix together all the ballot papers so taken out from the ballot boxes and the envelopes and distribute them in convenient bundles to the persons appointed to assist in counting the votes.

(c) When the ballot papers have been so distributed, but not before, the Returning Officer shall allow the candidates and their representatives duly authorised under sub-section (5) of section 29 of the Act, reasonable opportunity to inspect, without handling the ballot papers, and shall on every ballot paper which is wholly or partially rejected endorse the word "Rejected". If any candidate or his representative present questions the correctness of the rejection, he shall also record on the ballot paper the grounds for the rejection. No candidate or representative shall be allowed to see the serial number on the back of any ballot paper.

(d) The Returning Officer shall, as far as practicable, proceed continuously with the counting of the votes; and shall, during any necessary intervals during which the counting has to be suspended, place the ballot papers, packets and other documents relating to the election under his own seal and the seals of such candidates or representatives as may desire to affix them and shall cause adequate precautions to be taken for their safe custody.

43. (1) A ballot paper shall be rejected if—

(a) it has not on its back the official mark,

(b) the number of votes recorded thereon exceeds the number of vacancies to be filled,

(*c*) no vote is recorded thereon,

(*d*) it is void for uncertainty,

(*e*) it bears any mark by which the elector can be identified.

(*2*) In a constituency in which a seat is reserved for members of the Scheduled Castes, the ballot paper shall be also rejected if the number of votes recorded thereon in favour of candidates not belonging to the Scheduled Castes exceeds the number of seats in that constituency not reserved for members of those castes.

(*3*) The decision of the Returning Officer as to the validity of a ballot paper shall be final, subject only to reversal by the orders of a Court of competent jurisdiction.

44. The Returning Officer shall not open the sealed packets of the tendered votes, the marked copy of the electoral roll or the counterfoils of the ballot papers. He shall verify the statement submitted by the Presiding Officer under rule 39 by comparing it with the statement prepared under clause (*a*) of rule 42 and with the number of counted votes and the rejected ballot papers, the unused ballot papers in his possession and tendered votes list, shall then reclose and re-seal each packet which has been opened by him, made up into packets the ballot papers which have been counted and seal such packets, and shall record on each packet a description of its contents and the date of the election to which it refers.

45. The Returning Officer shall then prepare and certify a return setting forth—

(*1*) the result of the verification referred to in rule 44,

(*2*) the names of the candidates for whom valid votes have been given,

(*3*) the number of valid votes given for each candidate,

(*4*) the name or names of the candidate or candidates selected,

(*5*) the number of votes declared invalid, and

(*6*) the number of tendered votes given,

and shall permit any candidate or any representative duly authorised under sub-section (*5*) of section 29 of the Act to take a copy of or an extract from such return.

46. The Returning Officer shall, after reporting the result of the election send the return and all packets relating to the election in his possession to the Election Officer. The Election Officer as soon as he receives the return and the packets shall forward them to the Executive Officer for safe custody.

47. While in the custody of the Executive Officer the packets of ballot papers, whether counted, rejected or tendered, and of the counterfoils thereof, shall not be opened and their contents shall not be inspected or produced except under the order of a Court of competent jurisdiction but all other documents relating to the election shall be open to public inspection subject to such conditions as the Executive Officer may impose.

(2) They shall come into force on the 15th August 1940.

2. In these Rules,

(a) *Account Officer* means such officer as may be appointed in this behalf by the Auditor-General of India;

(b) *family* means

(i) in the case of a male subscriber, the wife or wives and children of a subscriber, and the widow, or widows and children of a deceased son of the subscriber. Provided that if a subscriber proves that his wife has been judicially separated from him or has ceased under the customary law of the community to which she belongs to be entitled to maintenance, she shall henceforth be deemed to be no longer a member of the subscriber's family in matters to which these rules relate, unless the subscriber subsequently indicates by express notification in writing to the Account Officer that she shall continue to be so regarded;

Provided that if a subscriber by notification in writing to the Account Officer expresses her desire to exclude her husband from her family, the husband shall henceforth be deemed to be no longer a member of the subscriber's family in matters to which these rules relate, unless the subscriber subsequently cancels formally in writing her notification excluding him:

NOTE I.—'Children' means legitimate children;

NOTE II.—An adopted child shall be considered to be a child when the Account Officer, or if any doubt arises in the mind of the Account Officer, the Solicitor to the Government of India is satisfied that under the personal law of the subscriber, adoption is legally recognised as conferring the status of a natural child, but in this case only;

(c) *Fund* means the Defence Savings Provident Fund;

(d) *leave* means any variety of leave recognised by the rules regulating the conditions of service of the subscriber;

(e) *year* means a financial year;

(f) any other expression which is defined either in the Provident Funds Act (XIX of 1925) or in the Fundamental Rules is used in the sense therein defined.

Constitution of the Fund.

3. (1) The Fund is constituted by the joint authority of the Central Government, the Crown Representative and the Governments of all the Governors' Provinces.

(2) It shall be administered by the Governor-General in Council and shall be maintained in India in rupees.

4. All persons in the service of the Crown in India, other than those in the railway services, shall be eligible to join the Fund.

5. (1) Any Government servant who elects to join the Fund may discontinue subscribing to the Fund only at the beginning of a year.

(2) Any subscriber who has discontinued subscribing to the Fund under sub-rule (1) may resume subscription at any time.

(3) No subscription shall be payable after the expiry of twelve months from the date on which the present war is declared to have terminated.

Nominations.

6. (1) The Account Officer shall as soon as may be after a subscriber joins the Fund, require him to make a nomination conferring the right to receive the amount that may stand to his credit in the Fund in the event of his death before the amount standing to his credit has become payable, or where the amount has become payable, before payment has been made.

(2) A subscriber who, at the time of joining the Fund, has a family shall send to the Account Officer a nomination in the Form set forth in the First Schedule in favour of one or more members of his family.

(3) A subscriber who has no family shall similarly nominate a person or persons in the Form set forth in the Second Schedule:

Provided that a nomination made under this sub-rule shall be deemed to have been duly made in accordance with these rules only for so long as the subscriber has no family.

(4) If a subscriber at any time acquires a family, he shall send to the Account Officer a nomination as provided in sub-rule (2), and, if he has under sub-rule (3) nominated any person other than a member of his family, he shall formally cancel the previous nomination.

(5) A subscriber may in his nomination distribute the amount that may stand to his credit in the Fund amongst his nominees at his own discretion.

(6) A nomination may be cancelled by a subscriber provided that it is replaced at the same time by any other nomination which is permitted to be made under this rule.

(7) A nomination shall take effect to the extent that it is valid on the date on which it is received by the Account Officer.

(8) On the death of a nominee, a subscriber shall make a fresh nomination.

Subscriber's Accounts.

7. An account shall be prepared in the name of each subscriber and shall show the amount of his subscriptions with interest thereon calculated in the manner prescribed in rule 12.

Conditions and rates of subscriptions.

8. (1) Except as provided in rule 5 a subscriber shall subscribe monthly to the Fund:

Provided that a subscriber may at his option elect not to subscribe during a period of suspension or leave.

(2) The subscriber shall intimate his election not to subscribe during a period of suspension or leave in the following manner:—

(*a*) If he is an officer who draws his own pay bills, by making no deduction on account of subscription in his first pay bill drawn after the date on which he is suspended or after proceeding on leave;

(*b*) If he is not an officer who draws his own pay bills, by written communication to the head of his office before he proceeds on leave or within a fortnight of the date on which he is suspended. Failure to make due and timely intimation shall be deemed to constitute an election to subscribe.

The option of a subscriber intimated under this sub-rule shall be final.

9. (1) The amount of subscription shall be fixed by the subscriber himself in whole rupees:

Provided that, if the pay of the subscriber does not exceed fifty rupees a month, the amount may be any multiple of a half-rupee.

(2) The subscriber shall intimate the fixation of the amount of his monthly subscription in each year by the first deduction during that year which he makes in this behalf from his pay bill, and the amount of subscription so fixed shall remain unchanged throughout the year:

Provided that if a subscriber is on duty for part of a month and on leave or suspension for the remainder of that month and if he has elected not to subscribe during leave or suspension, the amount of the subscription payable shall be proportionate to the number of days spent on duty in the month.

10. When a subscriber is transferred to foreign service or sent on deputation out of India, he shall remain subject to the rules of the Fund in the same manner as if he were not so transferred or sent on deputation.

Realisation of subscriptions.

11. Subscriptions shall be recovered from pay bills if drawn from a Government treasury in India or from the Home or Colonial Treasury. Where pay bills are not so drawn, the subscriber shall forward his subscription monthly to the Account Officer.

Interest.

12. (1) Government shall pay to the credit of the account of a subscriber interest at the rate of three per cent. per annum.

(2) Interest shall be credited with effect from last day in each year in the following manner:—

(i) on the amount at the credit of a subscriber on the last day of the preceding year—interest for 12 months;

(ii) on all sums credited to the subscriber's account after the last day of the preceding year—interest from the date of deposit up to the end of the current year;

(iii) the total amount of interest shall be rounded to the nearest anna.

Provided that when the amount standing at the credit of a subscriber has become payable, interest shall thereupon be credited under this sub-rule in respect only of the period from the beginning of the current year or from the date of deposit, as the case may be, up to the date on which the amount standing at the credit of the subscriber became payable.

(3) In this rule, the date of deposit shall, in the case of a recovery from pay bills, be deemed to be the first day of the month in which it is recovered: and in the case of an amount forwarded by the subscriber, shall be deemed to be the first day of the month of receipt, if it is received by the Account Officer before the fifth day of that month, but if it is received on or after the fifth day of that month, the first day of the next succeeding month.

(4) In addition to any amount to be paid under rules 13 of 14, interest thereon up to the end of the month preceding that in which the payment is made, or up to the end of the sixth month after the month in which such amount became payable, whichever of these periods be less, shall be payable to the person to whom such amount is to be paid:

Provided that where the Account Officer has intimated to that person (or his agent) a date on which he is prepared to make payment in cash, or has posted a cheque in payment to that person, interest shall be payable only up to the end of the month preceding the date so intimated, or the date of posting the cheque as the case may be.

(5) Interest shall not be credited to the account of a subscriber if he informs the Account Officer that he does not wish to receive it, but if he subsequently asks for interest, it shall be credited with effect from the first day of the year in which he asks for it.

Final withdrawals of accumulations in the Fund.

13. The amount standing to the credit of a subscriber shall become payable to him

(a) on his quitting service, or

(b) on the expiry of twelve months from the date on which the present war is declared to have terminated, whichever is earlier:

Provided that the said amount shall not become payable under clause (b) unless the subscriber has, at any time during the six months immediately following the said date on which the war is declared to have terminated intimated in writing,

(i) if he is an officer who draws his own pay bills, to the Account Officer,

(ii) if he is not an officer who draws his own pay bills, to the head of the office in which he is serving,

his intention to claim payment of the amount under that clause. The option of the subscriber intimated under this rule shall be final.

14. On the death of a subscriber before the amount standing to his credit has become payable, or where the amount has become payable, before payment has been made;

(i) when the subscriber leaves a family—

(a) if a nomination made by the subscriber in accordance with the provisions of rule 6 in favour of a member or members of his family subsists, the amount standing to his credit in the Fund or the part thereof to which the nomination relates shall become payable to his nominee or nominees in the proportion specified in the nomination;

(b) if no such nomination in favour of a member or members of the family of the subscriber subsists, or if such nomination relates only to a part of the amount standing to his credit in the Fund, the whole amount or the part thereof to which the nomination does not relate, as the case may be, shall, notwithstanding any nomination purporting to be in favour of any person or persons other than a member or members of his family, become payable to the members of his family in equal shares:

Provided that no share shall be payable to—

(1) sons who have attained legal majority;

(2) sons of a deceased son who have attained legal majority;

(3) married daughters whose husbands are alive;

(4) married daughters of a deceased son whose husbands are alive;

if there is any member of the family other than those specified in clauses (1), (2), (3) and (4):

Provided further that the widow or widows and the child or children of a deceased son shall receive between them in equal parts only the shares which that son would have received if he had survived the subscriber and had been exempted from the provisions of clause (1) of the first proviso;

(ii) when the subscriber leaves no family, if a nomination made by him in accordance with the provisions of rule 6 in favour of any person or persons subsists, the amount standing to his credit in the Fund or the part thereof to which the nomination relates, shall become payable to his nominee or nominees in the proportion specified in the nomination.

15. (1) When the amount standing to the credit of a subscriber in the Fund becomes payable, it shall be the duty of the Account Officer to make payment, as provided in section 4 of the Provident Funds Act, 1925.

(2) If the person to whom, under these rules, any amount is to be paid, is a lunatic for whose estate a manager has been appointed in this behalf under the Indian Lunacy Act, 1912, the payment will be made to such manager and not to the lunatic.

(3) Any person who desires to claim payment under this rule shall send a written application in that behalf to the Account Officer. Payment of amounts withdrawn shall be made in India only. The persons to whom the amounts are payable shall make their own arrangements to receive payment in India.

Procedural rules.

16. All sums paid into the Fund under these Rules shall be credited in the books of the Central Government to an account named "The Defence Savings Provident Fund". Sums of which payment has not been taken within six months after they become payable under these rules shall be transferred to 'Deposits' at the end of the year and treated under the ordinary rules relating to deposits.

17. When paying a subscription in India, either by deduction from pay bill or in cash, a subscriber shall quote the number of his account in the Fund which shall be communicated to him by the Account Officer. Any change in the number shall similarly be communicated to the subscriber by the Account Officer.

18. (1) As soon as possible after the close of each year the Account Officer shall send to each subscriber a statement of his account in the Fund showing the opening balance as on the 1st April of the year, the total amount credited during the year, the total amount of interest credited as on the 31st March of the year and the closing balance on that date. The Account Officer shall attach to the statement of account an enquiry whether the subscriber

(a) desires to make any alteration in any nomination made under rule 6;

(b) has acquired a family in cases where the subscriber has made no nomination in favour of a member of his family under sub-rule (2) of rule 6.

(2) Subscribers should satisfy themselves as to the correctness of the annual statement, and errors should be brought to the notice of the Account Officer within six months from the date of receipt of the statement.

19. (1) These Rules may be altered or amended by the Governor-General in Council at any time, with or without restrospective effect, by a notification published in the Gazette of India and the official Gazettes of all Governors' Provinces.

STATEMENT OF OBJECTS AND REASONS.

The working of the Bengal Food Adulteration Act, 1919, for the last twenty years has revealed certain defects and lacunæ in the provisions of the Act which have prevented local authorities from taking adequate action under the Act against unscrupulous manufacturers or vendors of adulterated foodstuffs, and have sometimes resulted in the failure of prosecutions in cases sent up for trial. For example, there is at present no provision under the Food Adulteration Act for the registration of the places of manufacture or wholesale business of any article of food, with the result that no adequate control can be exercised at the source where the adulteration mostly takes place. The dealers as well as vendors of certain kinds of food such as ice-cream, which are easily liable to contamination, cannot also be brought under control under the existing provisions of the Act. Again, the Act does not specifically confer on the authorised officer a right of entry into all premises for the prompt inspection and examination of suspected foodstuffs. This sometimes renders difficult the detection of adulterated foodstuffs concealed in private premises. Further, prosecution has failed in many cases because of the delay usually made by the public analyst in submitting the report of analysis, and also on account of the plea that the analysis was not done by himself. The present Bill seeks to remedy all these defects in the Act, and also to make certain correlated and additional provisions with a view to improving the working of the Act, *e.g.*, (1) the appointment of Inspectors either by the Provincial Government or by a local authority with the approval of Government to supervise the administration of the Act, and (2) providing that a prosecution shall be instituted upon receipt from a public analyst of a certificate declaring an article of food to be adulterated.

2. The present Act is restricted only to the prevention of adulteration of food. For the purpose of ensuring purity of food, it is considered desirable to enlarge the scope of the Act in certain respects on the lines of the Food and Drugs Act, 1938 (1 & 2 Geo. 6, Ch. 56) and some of the provisions in the Calcutta Municipal Act, 1923, and the Bengal Municipal Act, 1932, relating to food. Provision has accordingly been made in the Bill—

(*a*) for the prevention of the sale of any food or any living thing intended to be used as food, which is diseased, unsound, unwholesome or unfit for human consumption;

(*b*) for the prevention of the sale, preparation, etc., of articles of food by persons suffering from certain notified diseases;

(*c*) prescribing the sanitary conditions of premises used for the preparation or sale of food and other safeguards against the infection or contamination of articles of food; and

(*d*) for the framing of bye-laws by local authorities prescribing sanitary conditions and practices in regard to the handling, wrapping and delivery of food.

3. As a precaution against maladministration a provision has also been made, on the lines of section 93 of the English Act, empowering Government to take suitable action for the execution or enforcement of any of the provisions of the Act which a particular local authority may have failed to execute or enforce, or when a local authority has abused any power conferred upon it by or under this Act, and when such failure or abuse is to the detriment of the general interests of the consumers of food,—the necessary cost being recovered from the local authority concerned.

4. Opportunity has also been taken to improve the wording of certain sections of the existing Act on the lines of other more recent legislation in India and England, in order to make the intention clear and to remove ambiguity as far as possible.

CALCUTTA,

The 19th August, 1940.

Notes on clauses.

Clause 1.—The Bengal Food Adulteration Act, 1919 (Bengal Act VI of 1919) does not extend to Calcutta. The present Bill extends to the whole of Bengal, but the Provincial Government is given power to bring it into force, either wholly or in part, in such areas, on such dates and in respect of such articles of food as may be thought fit. The provisions of this clause should be read in conjunction with the provisions of clause 36.

Clause 3.—The definition of "adulterated" is based on that which appears in section 3 of the Calcutta Municipal Act (Bengal Act III of 1923). The definitions of "container", "food" and "transit" are based on similar definitions in the Food and Drugs Act, 1938 (1 & 2 Geo. 6, Ch. 56). The definition of "dairy" is taken from the Calcutta Municipal Act, 1923. The definition of "sale" is based upon that which appears in section 3 of the Punjab Pure Food Act, 1929.

Clause 4 corresponds to section 3 of the Bengal Food Adulteration Act, 1919, with certain additional provisions which are parallel to those of section 66, Food and Drugs Act, 1938.

Clause 5 corresponds to section 4, Bengal Food Adulteration Act, 1919, with the addition, in sub-clause (3), of a provision on the lines of section 3 (*2*), Food and Drugs Act, 1938.

Clauses 6 and 7 follow the lines of sections 5 and 6, Bengal Food Adulteration Act, 1919. Numerous drafting improvements have been introduced, and certain additional provisions have been taken from section 4, Food and Drugs Act, 1938.

Clause 8 corresponds to clause 7, Bengal Food Adulteration Act, 1919, with certain drafting changes.

Clause 9.—This clause is modelled on sections 412 and 421 of the Calcutta Municipal Act, 1923, and the Bengal Municipal Act, 1932, respectively.

Clause 10 is based on section 6 (*1*), Food and Drugs Act, 1938.

Clause 11.—Precedents for the provisions of this clause will be found in section 6 (*2*) of the Madras Prevention of Adulteration Act, 1918, sections 5 (*2*) and 6 of the Central Provinces Prevention of Adulteration Act, 1919, sections 4 (*3*) and 4 (*4*) (*a*) of the Bombay Prevention of Adulteration Act, 1925, and section 84 of the Food and Drugs Act, 1938.

Clause 12.—Sections 17A to 17D of the Bombay Prevention of Adulteration Act, 1925, provide for the licensing of certain places used for the wholesale sale or supply of certain perishable articles of food. Section 14 of the Food and Drugs Act, 1938, provides for the registration of premises used for the manufacture or sale of ice-cream or pickled, potted, pressed or preserved foods. This clause makes provision for the registration of all such premises.

Clause 13 is based on the provisions of section 16 (*1*), Food and Drugs Act, 1938.

Clause 14 introduces a new and desirable principle. It is not possible to provide that food shall be sold only from enclosed rooms, but power is conferred upon the Provincial Government to direct that certain specified foods shall only be sold from covered containers.

Clause 15 is based on the provisions of section 13 (*1*), Food and Drugs Act, 1938.

Clause 16 follows the lines of section 384, Bengal Municipal Act, 1932.

Clause 17 is based on section 15 (*1*), Food and Drugs Act, 1938.

Clause 18 is based on section 434, Bengal, Municipal Act, 1932.

Clauses 19-21 are redrafts of sections 9-11, Bengal Food Adulteration Act, 1919. Section 70, Food and Drugs Act, 1938, may be seen in this connection.

Clauses 22 and 23 repeat, in redrafted form, the provisions of section 14, Bengal Food Aulteration Act, 1919.

Clause 24 is based on section 74, Food and Drugs Act, 1938.

Clause 25 makes special provision, not merely for the authorization of persons, but also for the appointment of Inspectors, for the proper administration of the provisions of the Bill.

Clauses 26-28 are elaborations of sections 12 and 13, Bengal Food Adulteration Act, 1919. Section 77 (*1*), Food and Drugs Act, 1938, may be seen in this connection.

Clause 29 is an elaboration of sections 15 and 17, Bengal Food Adulteration Act, 1919.

Clauses 30 and 31 correspond to sections 16 and 19, Bengal Food Adulteration Act, 1919.

Clause 32 is the usual indemnity clause, and finds parallels in section 18 of the Bombay Prevention of Adulteration Act, 1925, and section 94 (*1*), Food and Drugs Act, 1938.

Clause 33 follows the lines of section 21, Bengal Food Adulteration Act, 1919, with the additional penalties, required by the introduction of numerous new provisions in this Bill.

Clause 34 inserts a new provision for the payment of the costs of analysis, examination and prosecutions.

Clause 35 follows the lines of section 93, Food and Drugs Act, 1938.

Clause 36 makes it clear that the provisions of this Bill will override the provisions of the Calcutta Municipal Act, 1923, and the Bengal Municipal Act, 1932, relating to the control of food, if any inconsistency occurs. It also confers power upon the Provincial Government to remove difficulties in this connection. As regards sub-clause (*1*), the provisions of section 107 (*1*), Government of India Act, 1935 (26, Geo. 5, Ch. 2) may be seen. Sub-clause (*2*) is based on section 44, Calcutta Municipal Act, 1923.

Clause 37 corresponds to section 20, Bengal Food Adulteration Act, 1919, with certain consequential additions.

The Schedule corresponds to the Schedule to the Bengal Food Adulteration Act, 1919, with certain minor drafting changes.

BENGAL LEGISLATIVE COUNCIL DEPARTMENT.

NOTIFICATION.

No. 1322L.C.—14th August 1940.—In pursuance of the provisions of rule 51 of the Bengal Legislative Council Procedure Rules, the following Bill which was introduced in the Bengal Legislative Council on the 2nd August, 1940, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE BENGAL JUVENILE SMOKING (AMENDMENT) BILL, 1940.

A

BILL

to amend the Juvenile Smoking Act of 1919.

WHEREAS it is expedient further to amend the Bengal Juvenile Smoking Act, 1919, in the manner hereafter appearing; It is hereby enacted as follows:—

This Act may be called the Bengal Juvenile Smoking Amendment Act, 1938.

1. The sub-sections *(2)* and *(3)* of the Bengal Juvenile Smoking Act of 1919 shall be deleted, in its place the following sub-section as sub-section *(2)* shall be substituted:—

"*(2)* It extends to the whole of Bengal."

2. In section 2 of the said Act after clause *(c)*, the following shall be added as clause *(d)*:—

"*(d)* 'Public place' means any place to which the public for the time being has access whether on payment or otherwise and includes a railway station and a railway carriage."

3. Section 4 of the said Act be omitted and the following shall be added in the said Act as section 4:—

"4. Whoever sells or gives or attempts to sell or give to a child apparently under the age of sixteen years any tobacco or cigarette whether for his own use or not, shall be liable on conviction by a Magistrate in the case of first offence to a fine not exceeding ten rupees and in the case of a second offence to a fine not exceeding twenty rupees, and in the case of a third offence or subsequent offences to a fine not exceeding fifty rupees."

4. Section 5 of the said Act shall be omitted and the following shall be added as section 5 and section 6 and the existing section 6 shall be renumbered as section 7:—

"5. If any boy apparently under the age of sixteen years be found smoking tobacco or cigarette in any public place, it shall be lawful for any chaukidar, dafadar, teacher of a recognised school, or affiliated college, member of a municipal board, member of a district board, member of a union board, Executive Officer and Councillor and Aldermen of Calcutta Corporation, registered medical practitioners, legal practitioners, any municipal or district board officer drawing a monthly salary of not less than Rs. 25 or any Magistrate to seize such tobacco or cigarette and destroy it."

The local Government may confer on any bench of Magistrate invested with the powers of a Magistrate of the second or third class power to try summarily any offence under this Act."

STATEMENT OF OBJECTS AND REASONS.

It is a fact that the Bengal Juvenile Smoking Act of 1919 though still in force has become a dead letter owing to the defects inherent in it. So it is desirable that it should be amended in such way that it may be worked for the benefit of persons concerned. So I propose to give power to all persons enumerated in the proposed section to seize and destroy tobacco.

THE BENGAL MONEY-LENDERS (AMENDMENT) BILL, 1940.

A

BILL

to amend the Bengal Money-lenders Act, 1933.

WHEREAS it is expedient to amend the Bengal Money-lenders Act, 1933, in the manner hereinafter appearing;

1. This Act may be called the Bengal Money-lenders (Amendment) Act, 1937.

2. In section 3 of the Bengal Money-lenders Act, 1933 (hereafter referred to as the said Act), in the 8th line of the said section after the words "the court shall," the words "until the contrary is proved" shall be omitted and in place of the words "fifteen and twenty-five per centum" wherever these words occur in this and other sections of the said Act, the words "twelve and eighteen per centum" shall be substituted.

3. For section 4 of the said Act, the following section as section 4 shall be substituted: "Notwithstanding anything in any other Act, where in any suit or proceeding in respect of any money lent by a money-lender before the commencement of this Act it is found that the interest accruing on the money lent amounts to a sum greater than the principal of the loan, the court shall limit the amount of such interest payable on the loan to an amount equal to 2/3rds of the principal of the loan."

4. In section 5 of the said Act in the second line for the words "ten per centum per annum" the words "6¼ per centum per annum" shall be substituted.

5. In place of section 6 of the said Act the following section shall be substituted: "No court shall, in respect of any loan made after the commencement of this Act, decree on account of interest a sum greater than 2/3rds of the principal of the loan."

STATEMENT OF OBJECTS AND REASONS.

Since the passing of the Bengal Money-lenders Act of 1933, the money market has become still cheaper and the rate of interest has been reduced everywhere considerably hence the necessity of the proposed amendments providing lesser rates of interest.

14. At the end of section 423 *add* "on payment of such fee as fixed by the Municipal Commissioners at a meeting held from time to time for the purpose."

STATEMENT OF OBJECTS AND REASONS.

With the widening of franchise and abolition of nominated block from provincial assemblies and with the redevelopment of democracy, it has become imperative to do away with the nominated block from the Municipal bodies to introduce adult franchise to keep pace with the progressive countries.

Clause 2.—With the doing away of the system of Government nomination this provision in section 17 would not be necessary.

Clause 3.—This gives powers to appoint Commissioners to represent labour or reserve seats for the same.

Clause 4.—In section 17 it is omitted, so the reproduction of it in section 19 has to be omitted.

Clause 5.—This is a most important clause. It proposes to introduce adult franchise at least in all urban areas. There is a great demand for introduction of adult franchise and urban areas are the fit places where this may be tried before it is introduced throughout the whole country.

Clause 6.—This proposes to increase the life of a Municipal Corporation from 4 to 5 years. This is necessary in view of the fact that the life of provincial assemblies and that of a district board under some conditions have already been increased from 4 to 5 years and there is no reason why the life of a Municipal Board should not be increased.

Clause 7.—This is necessary in view of the proposal embodied in clause 6.

Clause 8.—This is necessary to compel the Municipal Corporation to pay more attention to Primary Education. Though Act of 1919 was passed and Mr. Biss submitted his scheme long ago, few Municipalities have taken advantage of this Act.

There is no denying the fact that most of the Municipal Boards show very little interest in this direction, hence the necessity of adding such provision as proposed.

Clauses 9 and 10.—The mosques, temples, churches, i.e., all places of public worship, have been exempted from payment of house rate but have been made liable to payment of water and conservancy rates. As there is no owner of these religious places, the impositions made by way of water rate and conservancy simply accumulates year after year and have to be remitted as irrecoverable, hence the necessity of the proposed restriction in imposition of conservancy and water rates.

Clause 11.—This is necessary in view of proposed substitution of the word "owner" in place of "occupier" as in subsequent clause 12.

Clause 12.—This is necessary as occupiers are changing body and often leave the holding without giving previous notice and in practical working it is found that it is not easy to realise excess water charges from the occupiers who often change holding and leave the Municipality for ever. As the owner is not liable, the Municipal Board suffer yearly loss on account of non-realisation of excess water charges and ultimate writing off the same on ground of irrecoverability.

Clause 13.—This is necessary for speedy realisation of excess water charges.

Clause 14.—This is necessary to clear the present doubt.

5. In section 5 of the said Act in the 1st line after words "prosecution under" for word "section 3" the words "sections 3, 8 and 9" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

The main aim of this simple amending Bill is to give necessary power to the Municipal Commissioners of Municipal Board in Bengal to regulate the evil of prostitution within its jurisdiction. It is known that prostitutes at present reside in the municipality wherever they like and carry on their nefarious profession to the great annoyance of the neighbouring peoples, sometimes they purchase land and house in the middle of a respectable quarters. So it is necessary that the Municipal Commissioners shall have power to regulate prostitutes in any municipal town. The Bengal Suppression of Immoral Traffic Act of 1933 is enforced only in Calcutta and the Eastern Bengal and Assam Disorderly House Act, 1907, is in force in all municipalities. It is desirable that the growth of immoral traffic in women and girls should be checked by all means, hence there is necessity of some provision like that of proposed one in section 9 of the amending Bill.

NOTIFICATION.

No. 1326L.C.—14th August 1940.—In pursuance of the provisions of rule 51 of the Bengal Legislative Council Procedure Rules, the following Bill which was introduced in the Bengal Legislative Council on the 2nd August, 1940, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE BENGAL LAND-REVENUE SALES (AMENDMENT) BILL, 1940.

A

BILL

to amend the Bengal Land-revenue Sales Act (Act XI of 1859).

WHEREAS it is expedient further to amend the Bengal Land-revenue Sales Act XI of 1859 in the manner hereinafter appearing ;

It is hereby enacted as follows :—

This Act may be called the Bengal Land-revenue Sales (Amendment) Act of 1940.

It extends to the whole of Bengal.

After section 37 of the Bengal Land-revenue Sales Act XI of 1859, the following new sections may be inserted as sections 37A, 37B and 37C, respectively :—

37A. Where immovable property has been sold for non-payment of revenue or other due in due time under the provisions of the Bengal Land-revenue Sales Act, any person, either owning such property, holding an interest therein, or any person whose interests affected by the sale may, at any time within thirty days from the date of the sale, apply to the collector or the officer holding the sale on his depositing in the court of collector or the officer holding the sale—

(*a*) For payment to the collector or the officer holding the sale the amount specified in the notice or proclamation of sale as that for the recovery of which the sale was ordered, with interest calculated from the date of the certificate to the date when the deposit is made at the rate of 6 per cent.

(*b*) For payment to the purchaser as penalty a sum equal to 5 per cent. of the purchase money but not less than rupee one and for payment to the collector where sale is held for a public demand payable to the collector such outstanding charge due to the Government under any law for the time being in force as the collector certifies to be payable by the applicant or by the estate in default.

37B. (*a*) When in the case of an application under section 37A the deposit required by that section is made within thirty days from the date of sale, the collector or any officer empowered by him shall make an order setting aside the sale provided that no order shall be made unless notice of the application has been given to all.

(*b*) No suit to set aside an order made under this section shall be brought by any person against whom such order is made.

37C. Where a sale of immovable property is set aside under section 37B, the purchaser shall be entitled to an order for refund of his purchase with the penalty, or to an order of repayment, with or without interest, as the court may direct, against any person to whom it has been paid, as the case may be.

STATEMENT OF OBJECTS AND REASONS.

Clauses 37A, B and C are proposed to be inserted in order to provide some opportunity to the owners and the persons having interest in the immovable property which are sold at auction under the provision of the Bengal Land-revenue Sales Act XI of 1859 as are provided by order 21, rule 89 of the Indian Civil Procedure Code and provision of Public Demands Recovery Act of 1913. Recently, similar provisions have been made in the cases of sales of Patni Taluks. The absence of a provision of law similar to the proposed one is causing hardship and suffering to the proprietors and the persons affected by the sale in more than one way. In majority of cases the estates are sold not so much for the fault of the proprietors as for other causes and without the knowledge of actual proprietor and persons affected by the sale. Sometimes minor owners lose all by the sale brought about by some designing person. Sometimes some of the co-sharers deceitfully bring about the sale of the estate and purchase in favour of some of their relations or protégés in order to deprive some other co-sharer of due share in the estate. The Government revenue would not be affected as the proposed conditions for setting aside the sale are stringent enough to ensure the realisation of Government dues.

17. Omit sub-clause *(a)* from sub-section *(2)* of section 18.

18. Omit section 21 and section 17A.

STATEMENT OF OBJECTS AND REASONS.

It is universally admitted that there is a necessity of a great improvement in the condition of primary education in Bengal.

There is a great demand for free and compulsory primary education which is the foundation on which alone a nation's progress in all spheres of life rests, and it is thought the only remedy for the removal of mass illiteracy. To remedy this state of affairs the Primary Education Act, of which Mr. Surendra Nath Roy was the author, was passed in 1919 and though more than 16 years have passed, it has produced very little effect. Out of 128 Municipalities only one Municipality, viz., Chittagong, has introduced free and compulsory primary education, and that also for boys only, because the option in the matter was left to the discretion of local bodies. Similarly the scheme prepared by Mr. Biss under which Government undertake to pay half the cost, both capital and recurring, of primary education in any town has made little headway and because local bodies have proved reluctant to find even half the necessary funds. So it is necessary that some much more drastic and effective steps should be taken to compel the Municipalities to introduce free and compulsory primary education in the course of 5 years.

The main objects of this amending Bill are—

(*1*) To provide compulsory attendance at school of all children of ages between 6 to 11 years within the course of five years.

(*2*) To make provision for religious instruction in primary schools.

STATEMENT OF OBJECTS AND REASONS.

The Bengal Food Adulteration Act of 1919 stands in need of amendment in the light of the altered circumstances in the wording of the Act as it stands now various loopholes have been detected. The unscrupulous sellers taking advantage of these defective provisions of the law adopt various devices to frustrate the purpose of the law. Some of the sellers sell large quantities of linseed oil as mustard oil to the ignorant and unsuspecting simple consumers.

Some of them stock and sell adulterated mustard oil but declare the same as mixed oil, not for human consumption but for machineries, soap-making, etc., but in reality they sell it for human consumption. Sometimes dealers previously convicted for selling or manufacturing adulterated food change the names of their firms to avoid punishment prescribed for second or subsequent offence.

Sometimes the wholesale dealers in food refuse to allow the examination of the food to be made or the taking of samples by the health staff on the ground that the keys of the godown are not with him. Some cunning dealers in milk declare their milk as mixed milk in order to avoid the penal provision of the law. In some cases dealers in food intentionally give fictitious names to adulterated mustard oil, ghee, etc., stored by them for sale and refuse to give sample of the same for analysis on the false pleas that these articles are not notified articles. Sometime sellers of food give false names even false fathers' names and addresses to avoid prosecution. In some cases the accused cannot be traced for want of correct names and addresses.

Hence there is necessity of amending the Act in the proposed manner in order to make the Act elastic enough, so that no real offender can escape the punishment prescribed by the law. There is no denying the fact that pure food is one of the most important factors in producing a healthy and wealthy nation. Of recent the percentage of adulterated food has abnormally increased to the deterioration of the health of the people. Instances are not wanting in which case even the members of a family died on taking adulterated food. The provincial Acts of some other provinces contain similar provisions as proposed in this amendment.

(*a*) that the certificate debtor, with the object or effect of obstructing delaying the execution of the decree,—

(*i*) is likely to abscond or leave the local limits of the jurisdiction of the court, or

(*ii*) has, after the filing of the certificate before the certificate officer, dishonestly transferred, concealed, or removed any part of his property, or

(*b*) that the certificate debtor has or has had since the date of the filing of the certificate, the means to pay the amount for which the certificate has been issued, or some substantial part of the amount covered by the certificate and refuses or neglects or has refused or neglected to pay the same,

The Bengal Public Demands Recovery (Amendment) Bill, 1940.

(Clauses 5—10.)

Explanation.—In the calculation of the means of the judgment debtor for the purpose of clause (*b*) there shall be left out of account any property which, by or under any law or custom having the force of law for the time being in force is exempt from attachment in execution of the decree,

(*c*) when a certificate debtor appears before the certificate officer in obedience to a notice under this section to show cause, the certificate officer shall proceed to hear the certificate holders and take all such evidence as may be produced by him in support of his application for execution, and shall then give the certificate debtor an opportunity of showing cause why he should not be committed to the civil prison;

(*i*) pending the conclusion of the enquiry under this clause the certificate officer may, in his discretion, order the certificate debtor to be detained in the custody of an officer of the court or release him on his furnishing security to the satisfaction of the certificate officer for his appearance when required,

(*ii*) on the conclusion of the enquiry under sub-rule (*c*), the certificate officer may subject to the provision of section 31 make an order for the detention of the certificate debtor in the civil prison and shall in that event cause him to be arrested if he is not already arrested: provided that in order to give the certificate debtor an opportunity of satisfying the certificate debt, the certificate officer may before making the order of detention leave the certificate debtor in the custody of an officer of the court for a specified period not exceeding fifteen days or release him on his furnishing security to the satisfaction of the certificate officer for his appearance at the expiration of the specified period if the certificate debt be not sooner satisfied.

5. In sub-clause (*a*) of sub-section (*1*) of section 31 in place of the words "six months" the words "one and half month" shall be substituted.

6. At the end of section 34 of the said Act after the words "as the court may allow" the words "not exceeding five *per centum*" shall be added.

7. The whole of sections 60, 62, 63 and 64 of the said Act are hereby repealed.

8. From rule 9 of schedule I of the said Act, the words "or any local authority" shall be omitted.

9. The following shall be added as rule 14 of schedule of the said Act: "Any money or dues payable to a local authority such as Municipality, District Board or Local Board."

10. In the first line of the sub-section of section 77, the word "may" after the words "The certificate officer" shall be replaced by the word "shall".

STATEMENT OF OBJECTS AND REASONS.

This Bill seeks to amend the Bengal Public Demands Recovery Act, 1913, so as to protect honest debtor from detention in civil prison and to confine such detention to debtors proved to be recalcetrant or fraudulent and dishonest. It also provides that no order for execution by detention or imprisonment shall be issued unless the debtor has been given an opportunity of showing cause why he should not be committed to prison and the certificate officer is satisfied for reasons recorded on writing that (*i*) the certificate debtor is likely to leave the local limits of the jurisdiction of the court or has after the filing of the certificate fraudulently disposed of his property and (*ii*) that he is able to pay the amount of the certificate debt otherwise than from the protected assets. In this no new departure is made. The Government has already adopted this principle as the outcome of the recommendation of the Royal Commission on Labour and the Act No. XXI of 1936 has already been passed by the Central Legislatures embodying similar provision in the Civil Procedure Code. Secondly, it seeks to reduce the rate of interest charged under section 22 of the Act by half. This is necessary owing to distress prevailing in the country and owing to the fact that on account of this present high rates of interest the certificate debtor or the person affected by the sale cannot get the sale set aside by making deposit. It often happens that the deposit is made one or two years after from the date of the certificate and the interest accumulates at the present high rate. The present high rate is causing great hardship to the certificate debtors. The Government of Bengal has already accepted this principle by reducing the interest under the Bengal Tenancy Act of 1928 from 12 *per cent.* to 6¼ *per cent.* in the proposed Bengal Tenancy Amending Act (already published in the *Calcutta Gazette* of 27th August, 1937). Thirdly, it seeks to repeal sections 60, 62, 63 and 64 from the Act. This is necessary to give relief to the cultivators and tenants and more so as the Government has already proposed in the above-mentioned amending Act to do away with Chapter XIIIA of the Bengal Tenancy Act. So these sections have to be repealed for the best interest of the *raiyats*. Fourthly, it further seeks to give power to the local authority to realise their dues under the provision of the Act. It will be advantageous both to local authorities and provisions affected as it will minimise to large extent cost of realization.

STATEMENT OF OBJECTS AND REASONS.

The aim and object in introducing this important piece of legislation is to ameliorate the condition of Bus Drivers and Conductors.

The Bus Service in Bengal has been growing in importance for a decade and a half. Not only has it rapidly grown as a profitable commercial proposition and increasingly attracted capital from all directions, but as a primary utility concern, it has become one of the bases of the economic life of the province. In order to maintain their balance of profit in the face of this growing competition, owners of buses have been imposing progressive cuts on the wages of the Drivers and Conductors. On the other hand, working hours have been forced up, resulting in a severe diminution in the meagre subsistence of this class of important workers. This Bill seeks to regulate the condition of employment of Bus Drivers and Conductors and secure their interest as well as those of the trade itself.

STATEMENT OF OBJECTS AND REASONS.

Domestic servants constitute an important section of the community who have many obligations but hardly any rights. They add to the comfort and grace of life, but are denied some of the most elementary conditions for living a decent human life. The semi-feudal condition of Indian society has till now made it difficult to guarantee them any of the rights which membership of the State ought to confer. The present Bill proposes to offer them some of the rudimentary rights which other classes of workers in society have already secured. For the purpose some limitation of working hours, provision of daily and weekly rest and the recognition of right to leave and notice before dismissal are provided in the Bill. It is recognised that it would be difficult to extend these rights to rural areas and the Bill therefore contemplates the case of domestic servants in municipal areas alone. In a word, the betterment of the conditions of life and service of this humble but extremely important class of social workers is the object of the Bill.

THE BENGAL ESTATES PARTITION (ACT V OF 1897) AMENDMENT BILL, 1940.

WHEREAS it is expedient to further amend the law relating to the Partition of Estates;

It is hereby enacted as follows:—

1. This Act may be called the Estates Partition (Amendment) Act of 1940.

2. It shall come into force on the day of publication in the *Calcutta Gazette*.

3. Insert the words "whether paying revenue or not" after the word "lands" and before the word "which" in line 1, and insert "Revenue-free" after the last word "Revenue" in clause IX of section 3, in page 3 of the Manual.

4. Insert the following after the words "has knowledge" in line 8 of section 19(*1*), page 9 of the Manual:—

"The rent roll is not required to be filled with the application in cases where the record-of-rights have been prepared and finally published."

5. Insert the following after the word "partition" at the end of clause (*c*) in section 50, page 19 of the Manual:—

"But this is not to be done in cases where the record-of-rights have been prepared by the District Settlement Authorities."

6. Insert the word "certified" before the word "Extract" wherever it occurs in clauses (*a*), (*b*), (*c*) and sub-section (*2*) of section 59, page 22 of the Manual.

7. Insert the following as a new section 93(A) after section 93, page 32:—

"The Collector shall rectify any mistake or irregularity which may arise in the proceedings at any stage."

STATEMENT OF OBJECTS AND REASONS.

1. There is no provision in the Estates Partition Act for the partition of the lands of the revenue-free estates. The proprietors of the big revenue-free estates suffer much in realising rents and cesses from the common tenants as well as in the payment of cesses. So there should be a provision for the partition of these estates.

2. Rent roll of the estate is not required to be filed with the application of those districts where the record-of-rights has been prepared. Generally it is not done, as the record-of-rights shows all the particulars.

3. In cases where the record-of-rights has been prepared and finally published, the issue of notices upon the proprietors of the adjoining estates is not required, as the boundary of each village has been settled by the Settlement Authorities. It has been found in experience that after the Settlement Operations there exists no boundary dispute between the proprietors of the adjoining estates and they never appear to dispute the possession of the estate under partition, morever, it takes lots of time to serve the notices on the proprietors of the adjoining estates and it also increases the cost of the estate under partition.

4. If the extracts supplied to the proprietors be not certified, they cannot be used as evidence in any court of law and the proprietors have to take separate certified copies from the original.

5. There is no provision in the whole Act under which the Collector can rectify any mistake or irregularity which may arise in a partition proceeding.

The aim of this Bill is to remove these difficulties and for this purpose this Bill is introduced.

No. 1358L.C. — 16th August 1940. — In pursuance of the provisions of rule 51 of the Bengal Legislative Council Procedure Rules, the following Bill which was introduced in the Bengal Legislative Council on the 2nd August, 1940, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE BENGAL NON-AGRICULTURAL TENANCY BILL, 1940.

A

BILL

for protection and welfare of tenants holding lands in permanently-settled estates for non-agricultural purposes.

WHEREAS it is necessary to compel the proprietors and tenure-holders of permanently-settled area to conduct themselves with good faith and moderation towards their non-agricultural tenants ;

It is enacted as follows :—

1. This Act may be called the Bengal Non-Agricultural Tenancy Act, 1940.

2. It shall apply to permanently-settled areas of the whole of Bengal.

3. It shall come into force with effect from 1st April 1941.

4. *Definition.*—Non-agricultural raiyat means any person holding land for non-agricultural purposes whether for homestead, shop, godown and factory or for any other purpose except for agriculture and horticulture or for sub-letting to under-tenants.

5. In spite of any contract between parties or in spite of anything in the Transfer of Property Act of 1882 non-agricultural raiyats shall not be liable to ejectment except (*a*) for using the land in such a manner as to lower its value substantially or (*b*) for sub-letting it :

Provided however that a non-agricultural raiyat not liable to ejectment according to any terms of contract between parties or in accordance with the existing law shall not be liable to ejectment by virtue of this section.

Explanation.—Sub-letting shall not include temporary letting out of buildings, godowns and factories by a non-agricultural raiyat, but it shall include temporary or permanent leasing out of land for construction of any structure (building, godowns or factory) by a sub-tenant.

6. In spite of anything in a contract or any custom, the rent of a non-agricultural raiyat's holding shall not be enhanced except under the provisions of this Act.

7. The rent of a non-agricultural holding unless definitely settled as mokarari or fixed in perpetuity shall be liable to enhancement, or reduction or revision after every 10 years according to the following principles :—

(*a*) Enhancement shall not be made at any time at more than 2 annas in the rupee of old rent.

(*b*) The maximum rent of a non-agricultural holding after enhancement shall not be more than ½ per cent. on the market value of the land (exclusive of structure or improvements effected by the tenant) for the time being.

(*c*) When the existing rent is found to work out at more than 1 per cent. on the market value of the land, it shall be reduced to 1 per cent.

The Bengal Non-Agricultural Tenancy Bill, 1940.

(Clauses 8, 9.)

8. Non-agricultural raiyats' lands shall be transferable without landlord's consent, but a mutation fee at the flat rate of Rs. 5 shall be payable to the entire body of landlords and unless this amount together with costs of transmission be paid to the Registering Officer, no such transfer deed shall be registered.

9. Landlords of non-agricultural raiyats' holdings shall, on receipt of the notice of mutation through Collector, register the mutation.

STATEMENT OF OBJECTS AND REASONS.

In paragraph 5 of Article VI, section 7 of the Permanent Settlement Regulation (Regulation I of 1793), it was definitely laid down that the proprietors of lands were expected "to conduct themselves with good faith and moderation towards talukdars and raiyats" and in the first clause of the succeeding Article (section 8, Article VII), it was definitely laid down that "it was the duty of the ruling power to protect all classes of people particularly the most helpless" and reserved the right of enacting laws for such protection. In accordance with these declarations Bengal Tenancy Laws were enacted from time to time for protecting the agricultural raiyats but unfortunately nothing has so far been done to give any protection to the non-agricultural raiyats who also owing to their very helpless condition require as much protection as the agricultural raiyats. In the absence of any law, most of the landlords of non-agricultural raiyats even in permanently-settled areas have been conducting themselves most cruelly and inhumanly and have been squeezing out money from such tenants and their purchasers mercilessly regardless of the fact that permanent settlement given them was a boon of which the benefit was to some extent at least to be transmitted to their under-tenants. It is time now that the tyranny of the oppressive landlords should be stopped and definite laws enacted regarding the rights and liabilities of non-agricultural raiyats in permanently-settled area. The present Bill has been drafted for giving the necessary protection to the non-agricultural tenants.

No. 1359L.C. — 16th August 1940. — In pursuance of the provisions of rule 51 of the Bengal Legislative Council Procedure Rules, the following Bill which was introduced in the Bengal Legislative Council on the 2nd August, 1940, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE BENGAL WATER-HYACINTH (AMENDING) BILL, 1940.

A

BILL

to amend the Bengal Water-hyacinth Act of 1936.

WHEREAS it is expedient to amend the Bengal Act XIII of 1936 for making necessary provision for the construction and maintenance of fences, barriers or storage pounds and for realisation of costs for such construction and their maintenance, it is enacted as follows :—

1. This Bill may be called the Bengal Water-hyacinth (Amending) Bill, 1940.

2. It shall extend to the whole of Bengal.

3. It shall come into force on such date as the Local Government may, by notification, appoint.

4. To section 13 of the Act (Act XIII of 1936) a third sub-section shall be added to the following effect :—

" The Collector may authorise the president of any union board to prepare the estimate for construction and maintenance of fences, barriers or storage pounds under this section in consultation with the union board members and the president on being so authorised shall prepare the estimate as well as an assessment list for realising the cost estimated from the cultivators benefited by such construction after considering the benefit likely to accrue to each assessee. The assessment list so prepared shall be final after disposal of objections, if any, filed before the chowkidari circle officer within 15 days of publication of the assessment list. The assessed cost shall be realisable like chowkidari tax but may also be realised by following the procedure laid down in section 12 of the Act."

STATEMENT OF OBJECTS AND REASONS.

The Bengal Water-hyacinth Act has so far remained a dead letter, but it can be made of great benefit to the people of rural areas if powers are given to union board presidents to prepare estimate of the cost of construction and maintenance of fences, barriers or storage pounds referred to in section 13(*1*) of the Act, and assessment list showing how much of the cost is to be realised from which tenant Ordinarily the cost may be realised like chowkidari tax, but in special cases where the amount is large, powers should be given to realise the cost by taking possession of the lands benefited as laid down in section 12.

The crops of a huge tract of country of Bhati area are devastated by water-hyacinth only because there is no co-operation and organisation among the tenants for constructing and maintaining protective fences and barriers. If the union board is given the power of preparing the estimate and realising the costs from the persons benefited after assessing the cost on each, on due consideration of the benefit accrued, crops of a large tract of country can be easily saved. For obvious reasons the circle officer is proposed to be given powers to hear objections against assessment.

This is a very urgent legislative measure and if passed it will benefit the agriculturist to a great extent and stop the huge economic waste.

STATEMENT OF OBJECTS AND REASONS.

It is time that some poor laws should be enacted in this country for relief to the deserving poor. It will be worth while to give a start—a modest start to such social laws in Urban areas. With this object in view the Bill has been drafted. Lists of indigents requiring relief have been proposed to be prepared in two parts. The first part will contain names of disabled persons suffering from leprosy or other contagious diseases. Second part will show names of other disabled persons, who cannot earn their livelihood because of disease, infirmities, old age or minority. It will be compulsory on every Municipality to provide funds for the segregation and maintenance of all indigents of list (*a*) suffering from contagious diseases. As regards relief to indigents of the second list, the Municipalities shall try their best to render as much relief as possible and so long as the Municipalities be not able to provide for relief, they shall arrange to collect voluntary contributions and shall render help to indigents of this class only in urgent cases. They shall however arrange for regular inspection of indigents incapable of moving about without others' help and shall see they do not starve in silence.

After the lists are prepared the Municipalities as well as the Government will be in a position to examine and enact further laws for relief of the poor. Let us start with a modest beginning.

The final order of courts established under this Act shall be executed as decrees within the meaning of the Code of Civil Procedure.

STATEMENT OF OBJECTS AND REASONS.

So long certain matrimonial disputes under the Muhammadan Law used to be decided on a petition by the District Judge who was considered to be the successor of the Kazi under the Muhammadan Law: Recently the High Court of Calcutta held that the District Judge is not the Kazi and in fact the office of the Kazi has not been retained and so all questions, requiring adjudication regarding marriage, has to be brought before the Original Civil Court, as a suit, having jurisdiction. This course will involve delay in decision and in most cases there will be 1st appeal and 2nd appeal and will take its turn as an ordinary civil suit. In most matrimonial disputes the remedy thus obtained will defeat itself by delay in obtaining it. Hence, it is desirable to introduce machinery for a quicker disposal of such disputes by a more competent authority.

"(*3*) The president of every union board shall be a registrar of births and deaths for his union which shall be a district for the purpose within the meaning of section 2 of the Bengal Births and Deaths Registration Act."

STATEMENT OF OBJECTS AND REASONS.

That though the Bengal Village Self-Government Act was passed and brought into operation in 1919 with the object of developing the system of self-government in rural areas, yet for want of funds the scheme has proved to be a futility and a farce. In the absence of adequate funds, the real object could never be and has not been realised. The Act, however, has made the maintenance of the entire force of village chaukidars and dafadars a charge upon the resources of the union. The system of part-time village police might have served a useful purpose at the earlier stage of police organisation, but has now lost all its usefulness. For all the nominal and even doubtful service they render, the chaukidars and dafadars amongst themselves absorb practically the whole income of the union board, leaving a trifling amount to meet all real village works, viz., road, sanitation, water-supply, etc. The average income of a village union is about Rs. 1,600 or Rs. 1,700 per year, and chaukidars and dafadars absorb about Rs. 1,300 to Rs. 1,400 per year. If in the circumstances the number of chaukidars and dafadars are substantially reduced and one or two or even in places three whole-time peons are appointed, the union board work will be more economically and at the same time substantially performed, and the resources of the union may be made to go to the establishment of village dispensaries, removal of water scarcity and effecting other improvements within a reasonable period of time.

With this end in view it is proposed to reduce the present strength of the chaukidars and dafadars immediately and to such an extent that the board shall not spend more than a fixed percentage of its income towards their maintenance. Consequential amendments to some other sections are also proposed.

A

BILL

to amend the Bengal Agricultural Debtors Act of 1935.

8. In proviso to section 19(*1*)(*b*) in the first line after the words " Clause an " the word " adjudication " shall be substituted for the word " offer ".

9. The " Explanation " given at the end of section 19 shall be deleted.

10. The following shall be added in clause (*e*) of sub-section (*1*) to section 25, after the word " paid " :—

11. Section 31 shall be deleted.

In view of the amendments proposed above, corollary changes may be made in other sections of the Act by the Legislative Department.

STATEMENT OF OBJECTS AND REASONS.

The agricultural indebtedness of Bengal is largely due to exorbitant rate of interest charged by the creditors and readily agreed to by the debtors for want of proper banking facilities. It is the duty of the State to intervene and pull the debtors out of the pit in which they have fallen for reason not within their control. Agriculturists are the backbone of our country and the prosperity of Bengal depends on the sound economic position of its agriculturists. The interest of the agriculturists has been neglected too long, and now when the Legislature have realised the necessity of improving their economic condition by enactment, they should not be half-halting.

2. The Bengal Agricultural Debtors Act (Act VII of 1936) was enacted with the object of settling the agricultural debts mainly by compromise and hence provided for settlement, only when a debtor or creditor applied for settlement. But the agricultural debt settlement problem of Bengal is a very big problem and we cannot expect even to touch the fringe of the problem if we have to wait for applications and compromises. There are hundreds of reasons for a debtor or creditor not coming forward to apply for settlement. If we really mean business and honestly want the agricultural debts to be cleared off, we must by legislation compel all creditors apply for settlement within a fixed time and penalise non-compliance. Provision is therefore made in this Bill for compelling all creditors to file statement of agricultural debts within 3 months of establishment of the Board (*vide* clause 5 of Bill). Similar provisions are found in the Court of Wards Act according to which creditors of disqualified landlords are required to file statement of debts due to them. Provision is also made requiring Civil Courts to stay all proceedings in connection with agricultural debts and rents (*vide* clauses 4 and 5).

3. The existing Act is further defective in dealing with cases, in which amicable settlement proposals fail. To wait for 40 per cent. amicable settlement and then to give award against non-agreeing creditors is bound to result in dead-lock in 90 per cent. of cases. Section 21 of the Act is contemplated to give redress to the debtors in a roundabout way, who offer "fair proposals", but why should not the Board of its own motion examine each debt and determine the amount which is fairly payable to each creditor and include them in the award irrespective of the fact whether the creditor or the debtor agrees or not? If the Boards can give certificates of "fair offer" they can as well determine the amount fairly payable to each debtor according to certain definite principles to be laid down in the rules under the Act and settle all debts once for all. In the Bill therefore provision is made for settlement of debts by adjudication when parties disagree or either of them do not appear in spite of notice and the maximum rate of interest to be allowed is proposed to be fixed at 6¼ per cent. on the original principal and the maximum amount that could be settled as the aggregate debt is proposed to be fixed at 66 per cent. of the market value of the immovable properties of the debtor (*vide* clause 7).

4. The procedure of cash recovery of amount included in the award by instalments is bound to be unworkable in the long run. The economic condition of an average agriculturist is so precarious, that in 90 per cent. of cases the debtors are sure to default in payments of instalments and their holdings will be sold off under Public Demands Recovery Act. All the labour of the Debt Board will then be wasted and it will hasten the ruin of the agriculturists. In order that the Act may be of real benefit to the agricultural debtors, it is proposed that unless parties otherwise agree, and the Board considers the agreement reasonable, or the Board for any special reason thinks some other manner of satisfaction of decree desirable, instead of merely noting in the award the amount payable to each creditor on each instalment, the Board shall by order ordinarily transfer not more than one-third the lands of the debtors to the creditors in usufructuary mortgage for fixed periods for clearance of all debts—the entire land reverting to the debtor free from all debts after 20 years or less period. Unless some such compulsory provision is made for ensuring payment of instalments, the labours of the Board will be entirely wasted (*vide* clause 10).

5. If the amendments as proposed are passed, the Debt Boards will be able to deal with all cases of agricultural debts completely and efficiently. There will be no need of any insolvency proceedings, as scaling down of debts to 66 per cent. of the full value of the property of the debtor will enable the debtor to pay off the entire debt in 20 years even if only one-third the land is given out in usufructuary mortgage. The value of a holding is generally equivalent to 5 years average value of the gross produce or 10 years average value of *barga* produce, and as such the creditor by enjoying one-third the holding in usufructuary mortgage for 20 years, will get 66 per cent. of the full value of the entire holding even if he enjoys it by letting out in *barga*. The scaling down of debts to 66 per cent. full value of the property of the debtor cannot be at all questioned from point of equity. In other countries, e.g., Greece, the scaling down is far more drastic and the maximum amount that can be settled as payable by the debtor in that country is fixed at 60 per cent. of the value of the property.

No. 1364L.C. — 16th August 1940. — In pursuance of the provisions of rule 51 of the Bengal Legislative Council Procedure Rules, the following Bill which was introduced in the Bengal Legislative Council on the 2nd August, 1940, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE BENGAL LAND ALIENATION BILL, 1940.

WHEREAS it is expedient to restrict the passing of lands from the hands of rayats and under-rayats to non-agriculturists or to agriculturists owning more areas than they can cultivate themselves ;

It is enacted as follows :—

1. This Bill shall be called the Bengal Land Alienation Bill of 1940.

2. It shall extend to whole of Bengal and shall apply to lands which come under the purview of the Bengal Tenancy Act, 1885.

3. It shall come into force as soon as it is passed into an Act and receives the assent of the Governor.

4. In this Bill—

(*a*) Rayats and under-rayats, proprietors and tenure-holders shall mean rayats and under-rayats, proprietors and tenure-holders as defined in the Bengal Tenancy Act, 1885.

(*b*) Holding shall mean the interest of a rayat or under-rayat as defined in the Bengal Tenancy Act.

(*c*) A non-agriculturist shall mean a person who is not a bona fide tiller of the soil and does not cultivate land with his own hand.

(*d*) A Jotedar means a rayat having more than 100 bighas rayati land.

5. No rayat or under-rayat shall transfer any land of his holding to any proprietor, tenure-holder, Jotedar or non-agriculturist except under the following circumstances :—

(*a*) When the proprietor or tenure-holder is a resident of the village and has not already got more than 100 bighas in his Khas or Borga possession and the area proposed to be purchased will not make the total area after purchase in his possession or Borga possession more than 100 bighas.

(*b*) When the proprietor, tenure-holder or Jotedar requires land for the purpose of homestead or Cutchery and no more than 5 acres is wanted for the purpose.

(*c*) When a non-agriculturist requires land for purposes of homestead and area wanted is not more than 5 acres.

(*d*) When any enterprising man or firm requires land for agriculture or scientific methods or for any public purpose and the Collector of the district certifies as to the bona fides of the purchaser and recommends the sale.

(*e*) When any enterprising man or firm requires land for establishment of factories, etc., and the area is not more than 50 bighas.

(*f*) When the transfer is in favour of a relation within 3 degrees of.

The Bengal Land Alienation Bill, 1940.

(Clauses 6—10.)

6. No deed of transfer shall be accepted for registration, unless it contains an endorsement from the transferee or his agent to the effect either than the transferee is neither a proprietor, tenure-holder, Jotedar or non-agriculturist, or that he comes under one or other of the exceptions of section 5 (which shall be specified in the endorsement).

7. If this endorsement is found to the satisfaction of any Civil Court to be false or incorrect within 6 years of the registration of the transfer deed, the transfer shall stand cancelled and the Court holding transfer cancelled shall sell the land transferred, by bid to a bona fide agriculturist or to any other person coming under any of the exceptions specified in section 5 after taking a certificate from the purchaser or his authorised agent to that effect, which if found incorrect within 6 years the holding will again be liable to resale.

8. Out of the sale proceeds half shall go to the person at whose instance the sale was cancelled and the remaining half shall be credited to Government as cost of the proceedings.

9. No Court shall accept the offer of purchase from any bidder if any sale in execution of any decree or in any involuntary sale, without taking a certificate from the purchaser that either he is not a proprietor, tenure-holder, Jotedar or non-agriculturist or he comes under any of the exceptions specified in section 5 and without warning to the proprietor that the purchase will stand cancelled if the endorsement is found incorrect at any time within 6 years of purchase.

10. If in any involuntary sale, the highest offer from bidder who can legally bid according to the provision of this Act falls short of the decretal money or if there be no bid from any proper bidder, the Court shall temporarily make over the land, put to sale to the decree-holder for such period as the Court thinks fit but not exceeding six years for realisation of his dues from the usufruct of the land and in such a case the land shall revert to the judgment-debtor after the period of enjoyment by the decree-holder.

STATEMENT OF OBJECTS AND REASONS.

The Legislature before 1928 did not consider it proper to make the rayati lands transferable as they thought it would be against the interest of the real rayats who being illiterate and improvident will quickly sell off their lands whenever faced with any financial difficulty. In 1928 however the Legislature realised that in spite of no provision in the law about transfer of rayati lands, occupancy holdings were being sold and purchased freely and owing to non-existence of the provision of transfer in the Act, the custom of paying Salami to the landlord for getting recognition of transfer had grown up. The Legislature thought it proper to legalise the custom, though it was a pernicious custom and directly in contravention of articles 55 and 56 of Regulation VIII of 1793, according to which the Salami was a new imposition of the nature of an Abwab. The legalising of the Salami and fixing its rate prevented the abuse of powers by oppressive landlords but it did not prevent passing away of lands to the hand of non-agriculturist or accumulation of too large a quantity of lands in the hands of individual rayats. The Legislature having realised that Salami is an Abwab pure and simple and has failed to serve the so-called purposes of restricting transfer of lands to undesirable persons, have just passed Bill abolishing Salami altogether. It has now become necessary to enact some law which might effectively restrict transfer of lands to non-agriculturists and accumulation of too large a quantity of land in the hand of individual rayats. Provision is therefore made in this Bill making transfer of land to non-agriculturists and rayats having already a large area in possession, illegal except under special circumstances. The provisions of this Bill are far simpler than those of the Punjab Land Alienation Act and it is believed it will not throw much burden of additional work on the Revenue Officers of the Province. But at the same time care has been made to make the provisions effective by laying down that transfer against the provisions of this Act will stand cancelled if they are proved to be such at any time within 6 years of their execution.

THE BENGAL LAND-REVENUE SALES (AMENDMENT) BILL, 1940.

A

BILL

to amend the Bengal Land Revenue Sales Act of 1859.

WHEREAS it is expedient to give further protection to the proprietors against sale of their estates from error or want of notice by amending Act XI of 1859, it is enacted as follows :—

1. This Bill may be called the Bengal Land-revenue Sales (Amendment) Bill, 1940

2. It shall extend to those parts of Bengal where Act XI of 1859 applies.

3. It shall come into force on such date as the Local Government may by notification appoint.

4. The following two paragraphs shall be added after second paragraph of section 6 of the Act :—

The Collector or other officer duly authorised to hold sales, shall also issue notice of sale by registered post in the name of the recorded proprietors of the estate, and in case their number be more than 5, in the name of five biggest recorded share-holders intimating them of the particulars of sale—the cost of such registered notices being realised from the defaulters if the sale does not take place, otherwise from the sale-proceeds.

No sale shall take place until the officer conducting the sale has satisfied himself that the notification of sale has been duly published and the notices of sale have been sent to proprietors by registered post.

STATEMENT OF OBJECTS AND REASONS.

The rigours of the Sale Law (known as sun-set law) Regulation II of 1859 have to a great extent been relaxed but even now cases do occur when estates are sold for no actual default but on account of error or want of notice of sale. To prevent such sales it is necessary to make some provision for notice on the proprietors individually by registered post. Where the number of proprietors is large, such notice may be issued to only five biggest share-holders. The cost of such notice may be realised from the defaulter if the sale does not take place. In case sale takes place, in spite of notice, the cost may be realised from the sale-proceeds.

STATEMENT OF OBJECTS AND REASONS.

The extension of Joint Stock business in this country has created many new problems, not the least of which is the regulation of the markets for securities. The volume of business on the Stock Exchanges is daily increasing. On the Calcutta Stock Exchange alone it sometimes exceeds one crore rupees in a single day.

This large business is in the hands of a comparatively small number of brokers. They are members of an association which frames rules for regulating the mutual dealings between the brokers, but the Stock Exchange Association exercises no disciplinary jurisdiction over its members in their relations with the public. That has been left for the legislature and the courts of law to provide.

As one may be a broker who can find money to buy an association ticket which entitles him to the privilege of membership. He has to pass no test, he is not required to satisty any conditions, or to conform to any rules for securing compliance with a minimum standard of honesty in his business. Adjudged by a competent court to be guilty of gross misconduct or fraud, he may be convicted for cheating, misappropriation, or criminal breach of trust, but nothing will lose him the membership of the association.

The circumstances in which the broker conducts his business behind the back of his client and the fact that prices vary from day to day and very often from hour to hour afford him almost ideal opportunities to practise fraud if he is so minded. The contract notes which he gives to his client is a skilful document which conceals the identities of the real contracting parties and legal ingenuity has added other safeguards to minimize the risk of detection. Most brokers invite their clients, as a profitable line of business, to enter into contracts with them for carrying over their stocks. In such business it is seldom that the broker would give the distinctive numbers of his stocks to the client, for so long as the broker does not disclose their distinctive numbers he is free to dispose of them in the market and earn what is sometimes substantial profits by such dealings, while he is charging the client with full rate of interest. In strict law such profits should go to the client, but in practice it is very nearly impossible to make the broker accountable for them.

Even more serious than this is the menace of gamblers and professional speculators and the inroads they make from time to time on the stock markets. Owing to the ease and quickness with which money can be made on the Stock Exchange, it has attracted a large number of professional operators. Most of them are members with large financiers at their back outside the market. Their *modus operandi* is as follows: They select some market favourable for their operations. If the market has a normal capacity of taking 10,000 shares of the selected stocks in one day, the speculators will offer many times over its capacity until they bring down the price to a level at which the investors begin to take alarm and banks which hold large blocks of shares on margin come out as sellers. A condition of panic is thus created and in the general rush for sale which follows prices come down precipitately. The speculators then begin to gather their harvest by picking up the shares at the lower ends. Very often they work in concert or as syndicates and after having sold as many shares as they are capable of, they continue their operations by making fictitious sales among themselves to hammer down the price to still lower levels. This kind of artificially engineered panics have now become a regular feature of the market. Their effect is not confined to the speculative count but sooner or later it spreads to all stocks in the market. The theories of Doe Jones that the market price of stocks at any given time is governed by supply and demand and has nothing to do with the yield of stocks is the maxim of business of the speculators in all future markets. These depredations cost the investors, who ultimately have to foot the bills, several crores of rupees every year.

The tap root of the evil is the vicious system of blank sales which is sanctioned by the Stock Exchanges. It enables the speculators to sell forward what he has not got with the expectation of buying it when the price will be down and close the transaction at a handsome difference. One can understand a future market for merchandize, such markets may be convenient and even a necessity for manufacturers and others who have entered into commitments for future deliveries. But transactions in future in a share market cannot by any stretch of imagination be regarded as part of the legitimate business of anybody. It is a form of gambling which is prohibited by the Indian Contract Act. But the subtleties of the law which has to protect legitimate future transactions in merchandize have introduced distinctions which are fully taken advantage of by gamblers to evade its provisions.

The Bill, by making it unlawful for any one to sell stocks unless he has got it, seeks to put an end to this form of gambling.

But it will not prevent legitimate speculations. Any one who has the money or who can borrow it from the bank will still be able to buy as many shares as he likes if he entertains an optimistic view of its future. In short the Bill will stop speculative selling, but not speculative buying.

From the point of the industrial progress of the country a market for gambling in shares is still less defensible. The unused wealth of India, if one would take only the statistics of gold imports during the 30 or 40 years preceding the War is more than sufficient to supply all the capital requirements of her industries. But so long as her capital will be distrustful of industrial investments, India will have to depend upon foreign capital and foreign enterprise for the development of her industries. Much will be done to combat this feeling of distrust if the market for capital investment is freed from the influence and domination of the gamblers and prices of stocks follow a steadier course in accordance with the instrinsic positions of the industries.

The Bill aim, firstly, to protect the investors from the sharp practices which have become very common with a large number of brokers, secondly, to minimize the risk of industrial investment by eliminating from the capital market the disturbing influence of gamblers and, thirdly, by introducing an element of certainty in the market prices of shares to encourage Indian capital to seek investment in Indian industries. Lastly, the Bill provides for the constitution of a Board of Licence for Brokers which like the Bar Council and the Medical Council will regulate the admission and expulsion of brokers into the profession and will exercise a salutary and general disciplinary jurisdiction over them.

No. 1356L.C.—16th August 1940.—In pursuance of the provisions of rule 51 of the Bengal Legislative Council Procedure Rules, the following Bill which was introduced in the Bengal Legislative Council on the 2nd August, 1940, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE PRESIDENCY SMALL CAUSE COURT (AMENDMENT) BILL, 1940.

WHEREAS it is expedient to make better provisions for the revision of the decisions made by a Presidency Small Cause Court established in the town of Calcutta;

It is hereby enacted as follows:—

1. This Act may be called the Presidency Small Cause Court (Amendment) Act, 1940, and it shall come into force on the 1st day of April, 1941.

2. In section 36, substitute the word "revision" for the words "new trial".

3. For the present section 38, the following section shall be substituted:—

"38. The High Court in its Appellate Side, for the purpose of satisfying itself that a decree or order made in any case decided by the Small Cause Court was according to law, may call for the case and pass such order with respect thereto as it thinks fit."

STATEMENT OF OBJECTS AND REASONS.

Under the present provision of the law litigants aggrieved by a decision of the Presidency Small Cause Court Judge have a remedy by asking for a new trial by a Full Bench of the Small Cause Court and another by petition for revision by the High Court. In practice the first remedy is often illusory and involves waste of public money. The second is too expensive for an aggrieved but otherwise poor suitor, in view of the fact that the revision petition is entertainable on the Original Side of the High Court where the cost is notoriously high.

The present amendment is sought to abolish the present remedies and bring the law on the same footing as that provided by the Provincial Small Cause Court on the matter

THE INDIAN BAR COUNCIL (AMENDMENT) BILL, 1940.

A

BILL

to amend the Indian Bar Council Act, 1926.

WHEREAS it is expedient to remove certain restrictions and disabilities at present suffered by a class of advocates which prevent them from practising on the Original Side of the High Court of Judicature at Fort William in Bengal, and to give them all facilities henceforth as if no such restrictions exist;

It is hereby enacted as follows :—

Preliminary.

1. This Act may be called the Indian Bar Council (Amendment) Act of 1940.

2. It shall come into force immediately and shall apply to all advocates including advocates whose names appear on the roll of the Bar Council on the day on which this Act is passed.

3. In section 9, sub-section (*4*)—

(*a*) "High Court" shall be substituted for the words "High Courts" wherever they occur in the sub-section; and the word "that" shall be substituted for the word "those" wherever it occurs in the said sub-section; the word "its" for the word "theirs" occurring after the words "respectively in exercise of" and the word "it" for the word "they" occurring after the words "to grant or refuse, as", shall be substituted.

(*b*) The words "at Fort William in Bengal and" occurring in the said sub-section shall be omitted.

4. (*a*) After the words "in the High Court" in clause (*a*) of the sub-section (*1*), section 14, the following shall be inserted, namely :—

"(including the Original Side of the High Court of Judicature at Fort William in Bengal.)"

(*b*) The following words in sub-section (*3*), section 14, shall be deleted, namely :—

"Of the High Court of Judicature at Fort William in Bengal or" occurring after the words "shall be deemed to limit or in any way affect the power."

STATEMENT OF OBJECTS AND REASONS.

One of the main objects of the measure which finally took shape as the Bar Council Act of 1926 was the unification and eventual autonomy of the legal profession; and as this might be immediately attainable in respect of most of the High Courts it was expressly stated that at present the largest degree of unification possible should be effected in all High Courts by creating a single grade of practitioners. This last mentioned object has been effectively realised in all the High Courts except only in the High Courts of Bombay and Calcutta. Certain distinction has been kept up by the High Courts in question under powers given to them to make rules and lay down certain qualifications for persons who want to practise on the Original Side. It had been expected that the High Court in question shall have time to bring about the desired change by degrees. It is perfectly clear, however, that the courts are too conservative by tradition to undertake the removal of the special privileges enjoyed by a class of the profession. The change if at all must be enacted directly by the legislature.

Accordingly it is proposed to amend the Indian Bar Council Act of 1926 in such a manner as will give effect to the purpose previously mentioned, and bring all the members of the Calcutta Bar on the same level as the members of all other High Courts besides Bombay.

(d) from assisting an industrial business or enterprise in connection with industrial education or the training of apprentices ; and

(e) from assisting a village industry in any manner which may be determined by the Provincial Government."

STATEMENT OF OBJECTS AND REASONS.

The main object of the Bengal State Aid to Industries Act, 1931, was to obtain statutory power to enable State aid to be given mainly for the purpose of encouraging and developing cottage industries and industries on a small scale in the shape of loan guarantee and also to set up a Board of non-officials to advise Government in the matter. Though the Act was passed in 1932 owing to its very stringent provision little encouragement could be given to cottage industries and industries on a small scale. There is no provision in the Act for granting subsidy to cottage industries and so the amendment of the Act has become necessary to give power to the Provincial Government to grant subsidy to cottage industries. So this amending Bill has been framed with a view to give statutory power to the Provincial Government to encourage the development of cottage industries and village industries on a liberal scale. I have also suggested some other amendments in the Act.

1. This Act may be called the Bengal Moslem Marriage Extravagant and Superfluous Expenditure Regulation Act, 1940

2. This Act will apply to all Moslem weddings among the Moslems of Bengal and the provisions of this Act shall also be deemed to apply to all cases in which betrothal takes place before the commencement of this Act but the marriage is not solemnized until after such commencement.

Provided that no woman shall be sentenced to imprisonment.

STATEMENT OF OBJECTS AND REASONS.

It is a known fact that in Bengal, most Moslem families incur expenses out of all proportion at marriages in consequence putting themselves in the hand of money-lender and losing valuable property. So costly has a wedding become that in many families it is looked upon as sheer calamity. When state of life intended for man's happiness arouses such feeling and becomes the cause of the ruination of a happy family, something must be wrong with that society.

It is an admitted fact that many Moslem families are being ruined on account of costly marriages. Unless something is done to remedy this onward march of ever-increasing cost of Moslem marriages, the Moslem community of Bengal who are proverbially poor, shall die an economic death. Already some Indian States have taken some steps in this direction. China and Ankara have taken drastic measures to reduce the cost of marriage to its minimum. The fear of what people think if a certain standard of expenditure is not reached is one of the forces that tend to tug the average family down into poverty or something near it. Who will stand against public opinion of this sort ? As now our popular Ministry is in power, it is expected that they will encourage such sumptuary legislation as this.

NOTIFICATION.

No. 1407L.C.—17th August 1940.—In pursuance of the provisions of rule 51 of the Bengal Legislative Council Procedure Rules, the following Bill which was introduced in the Bengal Legislative Council on the 2nd August, 1940, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE BENGAL PLACES OF PUBLIC AMUSEMENT (AMENDMENT) BILL, 1940.

A

BILL

to amend the Bengal Places of Public Amusement Act, 1933.

WHEREAS it is expedient to amend the Bengal Places of Public Amusement Act, 1933, in the manner hereinafter appearing for some purposes ;

It is hereby enacted as follows :—

1. This Act may be called the Bengal Places of Public Amusement (Amendment) Act, 1940.

2. In sub-section (*3*) of section 2 of the Bengal Places of Public Amusement Act, 1933 (hereinafter to be called the said Act) after the word " Circus " the words " Cinema or like " shall be inserted.

3. At the end of the sub-section (*2*) of section 5 of the said Act, the following shall be added :—

" Or where a local body such as a municipal board or district board objects to the granting of any such licence by a resolution in favour of which at least two-thirds of the members present vote, no licence shall be granted under this Act in respect of such place until the local body concerned withdraws the objection by a resolution similarly passed in a special meeting convened for the purpose."

4. In the fifth line of sub-section (*1*) of section 8 of the said Act after the words " under this Act " the words " or where a local body, in whose jurisdiction any notified place of amusement is being kept open, object to the same being kept open furthermore " shall be inserted.

5. In the third line of section 9 of the said Act, after the words " under this Act " the words " or in face of any objection made by the local body concerned " shall be inserted.

6. In the third line of section 11 of the said Act after the words " Subdivisional Magistrate " the words " or any local body " shall be inserted ; and in the 2nd line of the proviso to section 11 of the said Act after the words " Subdivisional Magistrate " the words " or a local body " shall be inserted.

7. After section 11, the following section shall be added as section 11A :—

" 11A. A local body such as municipality and district board may with the previous approval of the Provincial Government make rules regulating the hours and time during which any notified place of public amusement shall be kept open and shall remain closed."

STATEMENT OF OBJECTS AND REASONS.

The main purpose of this amending Bill is to give necessary power to local bodies to control and regulate the opening of any notified place of public amusements within their respective areas. As the law stands at present local bodies have got practically no power over the notified place of public amusement opened within their respective area. Sometimes it so happens that in spite of vehement protest the licensing authority grants licence to open any place of public amusement and the local body concerned finds itself simply helpless and unable to protect the interest of the ratepayers. Not very recently, sharp difference occurred between the District Magistrate of Howrah and the Commissioners of Howrah Municipality. The Commissioners of Howrah Municipality wanted to close certain carnival show but the District Magistrate would not listen to the objection of the municipality. In order to give effective power to local body to control opening and closing of place of public amusement and to regulate the hours of opening and closing of the same, some provisions like these proposed are absolutely necessary.

NOTIFICATION.

No. 1408L.C.—17th August 1940.—In pursuance of the provisions of rule 51 of the Bengal Legislative Council Procedure Rules, the following Bill which was introduced in the Bengal Legislative Council on the 2nd August, 1940, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE BENGAL COURT OF WARDS (AMENDMENT) BILL, 1940.

A

BILL

to further amend the Court of Wards Act, 1879.

WHEREAS it is expedient to further amend the Bengal Court of Wards Act, 1879, in the manner hereinafter appearing for certain purposes ;

It is enacted as follows :—

1. This Act may be called the Court of Wards (Amendment) Act, 1940.

2. At the end of section 3 of the Court of Wards Act, 1879, hereinafter to be called the said Act, the following shall be added, namely :—

"'Proprietor' means a person who owns or possesses any interest in land solely or partly, whether as proprietor, assignee of the land revenue, lessee of waste land, as mutwalli, or as *sevait* or as trustee or otherwise."

3. For section 6 of the said Act, the following shall be substituted as section 6, namely :—

"6. (*1*) Any proprietor may apply to the Provincial Government to make an order directing that his property be placed under the charge and superintendence of the Court of Wards and upon receiving any such application, the Provincial Government may, if it considers it expedient in the public interest so to do, make an order accordingly.

(*2*) When it appears to the Provincial Government that any proprietor is—

(*f*) by reason of being woman or women declared by the Provincial Government to be incapable of managing her or their properties, or

(*g*) by reason of being proprietors adjudged by a competent civil court to be of unsound mind and incapable of managing their property for some reasons or other or incapable of managing their property, or

(*h*) by reason of being proprietors declared by the Provincial Government to be incapable of managing their property for some reason or other or incapable of managing or unfitted to manage his affairs, the Provincial Government may make an order directing that the property of such proprietor be placed under the charge or superintendence of the Court of Wards :

Provided that such order shall not be made unless such proprietor belongs to a family of political or social importance or the Provincial Government is satisfied that it is desirable, on grounds of public policy or general interest, to make such order.

The Bengal Court of Wards (Amendment) Bill, 1940.

(*Clauses 4— 9.*)

(*3*) Every order made by the Provincial Government under sub-section (*1*) or sub-section (*2*) shall be final and shall not be called in question in any court of law.

(*4*) When any proprietor is a minor or a person adjudged by a competent court to be of unsound mind and incapable of managing his affairs, the Court of Wards may make an order assuming the superintendence of the propriety or the person and property of such proprietor.

(*5*) When in respect of any proprietor an order is made by the Provincial Government under sub-section (*1*) or under sub-section (*2*) of section 6 the Court of Wards shall assume the charge of the property of such proprietor and may in its discretion also assume the superintendence of his persons."

4. For section 7 of the said Act, the following shall be substituted as section 7, namely :—

" When there are two or more proprietors and the shares of the several proprietors have not been separated off, and the Court of Wards, acting under section 6 assumes the superintendence of the property of one or more, but not all, of such proprietors, the Court of Wards may assume the superintendence also of the shares of such joint proprietor or joint proprietors, as is or are not incapacitated as required by secton 6, paying any such proprietor the surplus income accruing from his share of the property. The superintendence assumed under this section shall extend only to the management of the share of the joint proprietor in such joint property and shall not as regards such share include the power to sell or mortgage the same or any part thereof or to grant a lease thereof for a period exceeding 20 years or to create any charge thereon or interest therein."

5. From sections 9, 10, 11, 13A, 14, 15, 20, 27, 29, 35, 60 and any other sections, the word " disqualified " whenever and wherever it occurs in these sections and any other sections of the said Act shall be omitted, and in 2nd line of the section 11 of the said Act after words " any joint proprietors " the word " coming " shall be inserted in place of word " disqualified " omitted, in 2nd line of section 13A of the said Act after the words " Ceases to be " the words " incapable to manage " shall be inserted in place of word " disqualified " omitted, in 2nd line of the third paragraph of section 29 of the said Act, after the words " or adjudged to be " the words "an incapable proprietor " shall be inserted in place of word " disqualified " omitted, in 7th line of sub-section (*a*) of section 14 of the said Act in place of the word " disqualified " omitted, the word " incapable " shall be inserted.

6. From 2nd and third lines of section 27 of the said Act after the words " the proprietor " the words " of an estate borne on the revenue roll of his district " shall be omitted.

7. From 1st line of section 33 of the said Act after words " a sole proprietor " the words " of an estate " shall be omitted.

8. In sub-section (*1*) of section 10A of the said Act, after the words " or property under " the words " section 6 or " shall be inserted and in third line of section 11 of the said Act after words " under section " the word " 6 or " shall be inserted.

9. From 1st line of sections 31, 32 and 33, the words " of an estate " occurring in these sections after words " a sole proprietor " shall be omitted.

STATEMENT OF OBJECTS AND REASONS.

The main objects of this amending Bill are—

(1) To extend facilities and protection to tenure-holder and other land-holders.

(2) To substitute the clause or section which deems as "disqualified," any proprietor who applies for his property being taken over by the Court of Wards as "disqualified" and thereby to remove the sentimental objection of many to the use of this word in connection of any proprietor whose property is managed by Court of Wards. This has become necessary as some of these proprietors hold high and most responsible posts in public life and in the administration of the country.

(3) To widen the scope of the Act so that the estates of proprietor other than owner of the estate may be brought under the charge of the Court of Wards. With the inauguration of the provincial autonomy, it is desirable that the State should extend his protecting hand to preserve the property of his subjects in appropriate cases.

"(*h*) Payment of all expenses incurred by the District Wakf Committees in performance of the duties imposed, in payment of the salaries, allowance of the secretaries and their staff and the exercise of the powers conferred by this Act."

10. In place of section 69, the following section as section 69 shall be substituted :—

"69. No suit or proceedings in any court or tribunal by or against a mutawalli of a wakf to which this Act applies and relating to the title to wakf property or to rights of the mutawalli shall be compromised without sanction of the Central Board."

STATEMENT OF OBJECTS AND REASONS.

The main purpose of this amending Bill is very simple one. It aims principally to remove one defect from the present Act, viz., the creation of District Wakf Committees for the better and more efficient management of wakf in each district. As provided in the present Act, there is no provision for formation of such committees. It is seen that it is not possible for a Central Board established at Calcutta to effectively control the management of wakf in all the districts of Bengal. So there is a great necessity of adding some provision for formation of District Wakf Boards with clear duties.

I have also proposed some changes in the constitution of the Central Board. This is necessary in view of the changed conditions. I have also proposed to add to the functions of the Central Board. I have also proposed a reduction in the rate of fee which is levied on the income of wakf estate.

The present heavy rate is causing hardships in case of most wakf estates. So it is necessary that the rate should be lowered if not be abolished altogether. It would be in the fitness of things if the State contribute some annual amount to the wakf fund created under the provision of the Bengal Wakf Act, 1934.

THE AGRICULTURISTS LOANS (BENGAL AMENDMENT) BILL, 1940.

A

BILL

to amend the Agriculturists Loans Act, 1884, in its application to the Presidency of Bengal for certain purposes.

WHEREAS it is expedient to amend the Agriculturists Loans Act, 1884, in its application to the Presidency of Bengal for the purpose hereinafter appearing ;

It is hereby enacted as follows :—

1. This Act may be called the Agriculturists Loans (Bengal Amendment) Act, 1940.

2. In sub-section (*1*) of section 4 of the Agriculturists Loans Act, 1884, hereinafter to be called the said Act after the words "(2) the relief of distress" the words "or indebtedness" shall be inserted.

3. After sub-section (*2*) of section 4 of the said Act, the following shall be added as sub-section (*3*), namely :—

(*3*) Every loan granted under the Act shall be made repayable by instalments within such period from the date of the actual advance or when the loan is advanced in instalments, from the date of the advance of the last instalment actually paid.

4. In the 4th line of section 6 of the said Act after words "and severally," the words "or severally" and in the 2nd line of section 6 of the said Act after words "or to any other" the words "person or" shall be inserted.

STATEMENT OF OBJECTS AND REASONS.

The main purpose of this short and simple amending Bill is to remove some defects which have come to light and stand in the way of granting proper relief to the agriculturists in time of need. As the law stands at present, no loan can be granted under the provision of this Act to any individual agriculturist however deserving he may be and he must find some other persons to confine with him in order to be entitled to have the loan. This creates difficulties in many cases and it happens that needy agriculturists cannot be given any loan under the provision of this Act.

In order to empower Government to grant loan (of course in those areas where there is no other agency to give loan on easy terms) to destitute agriculturists to secure their holding for them, it is desirable that the scope of section 4 of the Act shall be made more liberal by adding words "or indebtedness." This necessary amendment has already been effected in some other province.

THE USURIOUS LOAN (BENGAL AMENDMENT) BILL, 1940.

A

to amend the Usurious Loans Act, 1918, in its application to the Presidency of Bengal for certain purposes.

WHEREAS it is expedient to amend the Usurious Loans Act, 1918, in its application to the Presidency of Bengal, for the purposes hereinafter appearing ;

It is hereby enacted as follows :—

1. (*1*) This Act may be called the Usurious Loan (Bengal Amendment) Act, 1940.

(*2*) It extends to the whole province of Bengal.

(*ii*) The explanation to the same sub-section shall be renumbered as Explanation II and the following shall be inserted as Explanation I, namely :—

Explanation I.—If the interest is excessive, the court shall presume that the transaction was substantially unfair, but such presumption may be rebutted by proof of the special circumstances justifying the rate of interest.

(*iii*) To clause (*b*) of sub-section (*2*) the following proviso shall be added, viz. :—

> "Provided that in case of loans to agriculturist if compound interest is charged the court shall presume that the interest is excessive."

STATEMENT OF OBJECTS AND REASONS.

This is a simple amending Bill with a view to effect some modification in the Usurious Loans Act of 1918 in its application to the Presidency of Bengal. With the passing of the Bengal Money-lenders Bill of 1939 by the Bengal Legislative Assembly the proposed amendments have become necessary so that more wider powers may be given to court to give relief in desirable cases.

(*iii*) It shall come into force at once.

2. Notwithstanding anything contained in section 401 of the Code of Criminal Procedure, 1898, or in any other enactments in force, where a person is confined in a prison under a sentence of imprisonment and it appears to the Provincial Government from his antecedents or conduct in the prison that he is likely to abstain from crime and lead useful and peaceful life, if he is released from prison or where a person is confined in prison having been sentenced or imprisoned for not less than three years period, and it appears that periodical visits to his home will have a good psychological influence on the prisoner if he is released temporarily from prison, the Provincial Government may by licence permit him to be released on condition that he be placed under the supervision or authority of a servant of the Crown or a secular institution, or of a person or society professing the same religion as the prisoner, named in the licence and willing to take charge of him or may release a prisoner for temporary period for his visit to his home on such conditions as it think proper.

Explanation.—The expression, *i.e.*, sentence of imprisonment in this section shall include imprisonment in default of payment of fine and imprisonment for failure, to furnish security under Chapter VIII of the Code of Criminal Procedure, 1898 :

Provided that the Provincial Government may delegate this power to any of its responsible officers in writing.

3. A licence granted under the provisions of section 2 shall remain in force until the date on which the person released would, on execution of the order, *i.e.*, warrant authorising his imprisonment, have been discharged from prison had he not been released on licence, or until the licence is revoked, whichever is sooner, or until the period for which he was temporarily released expires.

4. The period during which a person is absent from prison under the provision of this Act on a licence which is in force shall be taken as a part of the period of imprisonment to which he was sentenced, for the purpose of computing the period of his sentence and for the purpose of determining the amount of remission of his sentence which he might earn under any rules relating to such remission.

The Bengal Good Conduct Prisoners Probational and Temporary Release Bill, 1940.

(Clauses 5—8.)

5. The form and conditions of a licence to be granted under section 2 shall be prescribed by the Provincial Government by general or special order and by the rules framed for that purpose.

6. (*i*) The Provincial Government may at any time revoke a licence granted under section 2, but generally no licence shall be revoked unless the person to whom a licence has been granted intentionally and wilfully breaks any of the conditions of such licence or on ground of public safety and security.

(*ii*) An order of revokation or cancellation passed under the provisions of sub-section (*i*) shall specify the date on which the licence shall cease to be operative and shall be served upon the person concerned in such a manner as prescribed by the Provincial Government by rules.

7. (*1*) If any person escapes from the supervision or authority of a servant of the Crown or secular institution, or a society or person in whose charge he has been placed under the provisions of section 6, or if any person who was temporarily released and whose period of temporary release has expired, fails without lawful excuse the burden of proving which shall be upon him, to return to the prison from which he was released, on or before the date specified in the order of revocation or of temporary release, such person shall, on conviction by magistrate, be punishable with imprisonment of a term which may extend to one year or with fine or with both.

(*2*) An offence punishable under the provisions of sub-section (*i*) shall be deemed to be a cognisable offence within the meaning of clause (*f*) of sub-section (*i*), section 4 of the Code of Criminal Procedure, 1898.

8. The Provincial Government may make rules consistent with this Act—

(*1*) For the form and conditions of licences on which prisoner may be released.

(*2*) For defining the powers and duties of Government officer, societies, persons under whose authority or supervision conditionally or temporarily released prisoners may be kept.

(*3*) Generally for carrying out into effects all the purposes of the Act.

STATEMENT OF OBJECTS AND REASONS.

It is an admitted fact that the persons are sent to prison with a view to their reformation. The old theory of punishment for punishment's sake has long been discarded. It is a generally accepted view of the civilized world that prisoners should be given every opportunity, every possible encouragement to reform themselves while undergoing their terms of sentence in prison. This simple Bill has been framed with a view to empower the Provincial Government or any officer to whom the authority of the Provincial Government is delegated to release the good conduct person on licence to release the prisoners temporarily in order to give them opportunity to see their relatives at home. There are similar provisions in sections 21 to 27 of the Prisoners Act of 1900, but these provisions are confined to cases of penal servitude only and are only applicable in cases of European and Americans only. Hence there is a great need of an Act like that of the proposed Act in Bengal.

11. For section 16 of the said Act, the following shall be substituted as section 16, namely :—

"16. The provisions of sections 7 and 11 shall apply to the city of Calcutta and to the suburbs of the town of Calcutta as the same may be from time to time defined by any notification published by the Provincial Government in pursuance of the Calcutta and Suburban Police Act, 1866, and the provisions of all sections of this Act shall apply to the other parts of Bengal."

STATEMENT OF OBJECTS AND REASONS.

The sole purpose of this amending Bill is to check and suppress gambling in Bengal in all possible ways. The original Act was passed so long ago as 1867 since then no drastic modification or alteration was made in the Act in light of defects discovered in the working of this Act. Gambling has increased day by day and it is causing immense suffering to the victims of the same. It is desirable that the Act should be extended to whole of Bengal and that its provisions should be made more stringent and at the same time more wide so that unscrupulous people may not escape the punishment due to them owing to lacuna and loopholes discovered in the Act.

(3) If so, in what areas and subject to what conditions should an allowance be given?

(4) How should the allowances, if any, be regulated, if in future the cost of living should rise or fall?

RESOLUTION.

The 7th August 1940.

No. L.-1714.—The All-India Railwaymen's Federation and certain other organisations of railway labour have presented demands for the grant of a dearness allowance to railway employees to meet the increased cost of living brought about by war conditions. The demand of the Federation is that there should be an increase of wages ranging from 10-20 per cent. to employees drawing less than Rs. 100 per mensem. The question was discussed by the Federation with the Railway Board at a meeting in April last. The view of the Railway Board that as prices stood then there was no justification for granting a dearness allowance was explained to the representatives of the Federation and they were also told that the Government of India in consultation with the Provincial Governments were actively considering what was the best means of providing relief in the event of any relief being considered necessary in the future owing to a further rise in the prices. The reason why in the opinion of Government there was no justification for the grant of a dearness allowance had also been previously explained at length in the Legislative Assembly by the Hon'ble Member for Railways in his budget speech. The All-India Railwaymen's Federation, however, adhered to the view that there was a case for the immediate grant of an allowance and they have submitted an application to the Government of India for the appointment of a Board of Conciliation under section 3 of the Trade Disputes Act, 1929, to settle the dispute.

2. The Government of India, having reviewed the matter carefully, are not convinced that the present circumstances warrant the grant of any dearness allowance. Having regard, however, to the importance of the question for those employees on low rates of pay and the difference of opinion that has arisen, they believe that it would be of assistance both to railway administrations and to railway workers to have an enquiry into the matter under the Trade Disputes Act. The

Government have carefully considered what machinery will be most appropriate for dealing with the question and have come to the conclusion that a Court of Enquiry will be more appropriate than a Board of Conciliation. The Government of India have therefore decided to appoint a Court of Enquiry under section 3 of the Trade Disputes Act, 1929, to enquire and report on the following terms of reference:—

(1) What has been the rise in the cost of living for the lower paid staff since the outbreak of war, in the various areas in which they are employed?

(2) Having regard to the previous movements in wages and prices, does the rise since the outbreak of war establish a case for a war allowance for the lower paid staff?

(3) If so, in what areas and subject to what conditions should an allowance be given?

(4) How should the allowances, if any, be regulated, if in future the cost of living should rise or fall?

3. The Court will consist of—

The Hon'ble Mr. Justice B. N. Rau, Kt., C.I.E., I.C.S. (Chairman).

Sir, Shafaat Ahmad Khan, Member.

Mr. A. Hughes, I.C.S., Member.

Mr. Hughes will also act as Secretary to the Court.

4. To enable the present enquiry to be conducted expeditiously, the Government of India have decided to confine it to the G. I. P. Railway. If as a result of the Court's Enquiry, the Government of India adopt any principles regulating the grant of an allowance to any classes of workers on the G. I. P. Railway, they will be prepared to apply these principles to any other railway servants in their employ to whom they may be equally applicable.

The Court will be appointed in August and will report to Government in the Labour Department.

ORDERED that the above Resolution shall be published in the *Gazette of India*, for information.

CHAPTER I.

General.

Although the economic depression, serious floods and the consequent failure of crops cast dark shadows across the year 1938-39, the level of achievement reached in the previous year was maintained and a considerable amount of thoughtful preparation was made for the development of new schemes and improvements in the field of education.

2. The following are some of the important features of the year:—

(i) The posting of District Organisers of Physical Education in all districts in connection with the Youth Welfare Movement and the establishment of Physical Training Camps for school teachers.

(*ii*) Increased attention paid to the subject of adult education.

(*iii*) The establishment of two more District School Boards in Tipperah and Faridpur in addition to the 12 already in existence. The establishment of a School Board for Howrah district from April 1939 was announced in Government Notification No. 6383 Edn., dated the 14th December 1938.

(*iv*) Publication of the revised curriculum for primary schools covering a course of four years instead of five.

(*v*) Partition of the Dacca Divisional Inspectorate into two Ranges with headquarters at Dacca and Bakarganj.

(*vi*) Transfer of local educational control in the Chittagong Hill Tracts from the Inspector of Schools, Chittagong Division, to an Educational Board.

(*vii*) Sanction of additional allotment for grants to non-Government secondary schools, high and junior madrasahs of the Reformed type and tols.

(*viii*) Extension of the system of grants-in-aid to senior madrasahs (old type).

(*ix*) Additional grants for scholarships to pupils belonging to the Scheduled Castes and educationally backward classes and appointment of a Special Officer to look after their interests.

(*x*) Sanction by Government to the establishment of a new Ladies' College in Calcutta to be named after the Lady Brabourne.

(*xi*) The creation of a post of an Inspector of Madrasahs by the District Board of Chittagong.

(*xii*) The publication of a series of valuable reports by Dr. Jenkins, Special Officer, on girls' and women's education in Bengal, on the deprovincialisation of Government colleges, on new rates of pay for the subordinate educational services, on the scales of pay of gazetted educational officers and on the reorganisation of the Inspectorate.

Administration and Control.

The authorities which exercise in varying degrees, administrative, academic or financial control over educational institutions in the Presidency are the Education Department of Government, the two Universities of Calcutta and Dacca, the Board of Intermediate and Secondary Education, Dacca, district boards, municipalities, district school boards constituted under the provisions of the Bengal Rural Primary Education Act of 1930 and various religious and philanthropic societies—both Indian and non-Indian. The control of general education rests ultimately with the Minister of Education who is an elected member of the Legislative Assembly.* Throughout the period under review the Hon'ble Mr. Abul Kasem Fazlul Huq, Chief Minister, was in charge of the Education portfolio. European education has also been transferred to popular control since the introduction of the Constitutional Reforms and the Hon'ble Minister for Education is *ex-officio* President of the Provincial Board of Anglo-Indian and European Education in Bengal.

2. The Education Department consists of the following services:—

(*i*) Indian Educational Service (Men's Branch).

(*ii*) Bengal Senior Educational Service (Men's and Women's Branches).

(*iii*) Bengal Educational Service (Men's and Women's Branches).

(*iv*) Bengal General Service—Education.

(*v*) Subordinate Educational Services.

* Medical schools and colleges are under the control of the Local Self-Government Department and agricultural, technical and industrial (except engineering) institutions under the control of the Agriculture and Industries Department.

The control of education in the Chittagong Hill Tracts lies with the Revenue Department.

(*i*) *Indian Educational Service.*—Recruitment to the Indian Educational Service was stopped some years ago by the Secretary of State for India. Excluding the post of the Director of Public Instruction, Bengal, this service consisted of 19 posts during the year, of which 11 were held by permanent members of the Indian Educational Service. Of these 11, three retired from the service of Government during the year under review. Of the remaining 8 posts, 4 were "special" posts which could not be abolished so long as there were Indian Educational Service officers capable of holding them, 2 were held by members of the Bengal Educational Service on an officiating basis in the Bengal Senior Educational Service and 2 by members of the Bengal General Service on contract.

(*ii*) *Bengal Senior Educational Service.*—In addition to the 53 posts which were created in the Men's Branch of the Bengal Senior Educational Service from 1st April 1934, one post of Professor of Economics for Islamia College was created last year. Of these 54 posts, 32 were held by permanent members of the service, 5 by members of the Bengal Educational Service officiating in the Bengal Senior Educational Service and 1 was held in abeyance. Of the remaining 16 posts, 11 were held by members of the Indian Educational Service, 2 by officers on a contract basis on special rates of pay and the remaining 3 by direct recruits to the Bengal Senior Educational Service who were still unconfirmed. Of the 5 posts in the Women's Branch of the Bengal Senior Educational Service, 4 were held by permanent members of the service and the remaining one was filled on an officiating basis by a member of the Bengal General Service.

(*iii*) *Bengal Educational Service.*—The Men's Branch of the Bengal Educational Service contained 193 posts as in the preceding year, and the Women's Branch 24.

(*iv*) *Bengal General Service.*—Certain "special" posts and posts not within the classified lists were merged in the service called the Bengal General Service in terms of Government Notification No. 1665A, dated 14th February 1936. The strength of this service at the end of the year under report was 50.

Besides the above, there were certain part-time gazetted posts on fixed rates of pay or on fixed conveyance allowance or honorary during the year under review as detailed below:—

(1) Professor of Geology, Presidency College.

(2) Professor of Geology, Bengal Engineering College.

(3) Lecturer in Accountancy, Bengal Engineering College.

(4) Honorary Lecturer in Irrigation, Bengal Engineering College.

(5) Honorary Lecturer on Railways, Bengal Engineering College.

(6) Honorary Lecturer on Water Supply and Sewerage, Bengal Engineering College.

(*v*) *Subordinate Educational Service.*—The services below the Bengal Educational Service comprise different kinds of appointments, viz., teaching, inspecting, miscellaneous and clerical, on many differing time-scales of pay. The table below shows the strength of

the Subordinate Educational Service posts, teaching, inspecting miscellaneous and clerical, for the years 1937-38 and 1938-39:—

	1937-38.	1938-39.

Besides the above, there were certain other temporary whole-time or part-time posts in existence on the 31st of March 1939 as detailed below:—

(2) Teachers of Government School of Art ..	2

3. **Direction.**—The Director of Public Instruction, Bengal, is the executive head of the Education Department. Mr. J. M. Bottomley was the Director from 1st April 1938 to 10th October 1938 and Dr. W. A. Jenkins from 11th October 1938 to 31st March 1939. The Director was assisted in his work by Khan Bahadur Fakhruddin Ahmed up to 4th July 1938 and by Khan Bahadur Maulvi Tasadduq Ahmed from 5th July 1938, to 31st March 1939, by Khan Bahadur Mr. Md. Maula Baksh, as Assistant Director of Public Instruction for Muhammadan Education, Bengal, by Khan Sahib Mr. Abdul Hakim as Special Officer for Primary Education, by Babu Rajkumar Das as Special Officer, Scheduled Caste Education in Bengal, and by Mr. J. Buchanan as Director of Physical Education, Bengal.

Dr. W. A. Jenkins served as Special Officer in connection with the University and Secondary Education from 14th October 1937 to 10th October 1938.

4. **Inspection.**—The following table indicates the strength of the departmental inspecting staff as it stood on March 31st 1939:—

	Presidency Division	Burdwan Division.	Dacca Range.	Bakarganj Range.	Chittagong Division	Rajshahi Division.	Total.

In January 1939 Dacca Division was split up into two Ranges, viz., Dacca Range and Bakarganj Range, and each placed under a separate Inspector of Schools.

During the year under report the Board of Education, Chittagong Hill Tracts, came into existence and began to function and the duties of the Inspector of Schools, Chittagong Division, in the Hill Tracts were transferred to the Deputy Comissioner, Chittagong Hill Tracts.

One mournful event which took place during the year under report was the untimely death of Mr. P. Banerjee, the District Inspector of Schools, Hooghly. He died in harness. In him the department has lost a very useful, intelligent and capable officer.

5. **Extra-departmental agencies.**—The District and Subdivisional Officers continued to give ungrudging assistance and advice to the department. As Chief Executive Officer in the district, the District Magistrate has a very important voice in the distribution of grants-in-aid to schools and the constitution of their managing committees. The department is thankful to these officers for their generous co-operation. The acknowledgments of the department are also due to Chairmen and Vice-Chairmen of district boards, municipalities, newly formed district school boards and union boards for the interest they have taken in the improvement of primary and technical education in rural and urban areas. The various missionary societies—both Indian and non-Indian—and other organisations like the Society for the Improvement of Backward Classes, the Nari Sikhsa Samiti, Saroj Nalini Memorial Association and the Uttarpara Hitakari Sava also deserve special

mention for their valuable educational work, specially for girls, and for the education of the backward classes. The Railway authorities also deserve mention in this connection for helping the cause of education by maintaining both general and special schools, principally for the benefit of their employees' children.

CHAPTER III.

Primary Education.

General statistics.—The increase in the number of pupils in primary schools for boys and girls continued during the year in spite of a reduction in the number of schools due to their more judicious distribution and to a policy of amalgamation of contiguous but inefficient institutions. The following table gives comparative figures for all primary schools:—

	1937-38.	1938-39.
Number of schools	60,074	55,852
Number of pupils	25,85,915	26,27,833
Cost	Rs. 85,64,764	Rs. 86,10,553

(Primary education of Indian girls and Europeans is dealt with in other chapters.)

2. **Schools.**—The number of schools for Indian boys fell during the year from 43,348 to 41,712. The following figures show the position in various areas of the Presidency:—

Division.	1938-39.						1937-38.
	Number of schools managed by Government.	Number of schools managed by district boards.	Number of schools managed by municipal boards.	Number of schools receiving aid from public funds. Total ..	76	6,547	356	31,078	3,655	41,712	43,348

3. **Pupils.**—The number of pupils in boys' primary schools increased from 2,073,388 (including 185,238 girls) in 1937-38 to 2,165,508 (including 231,933 girls) in 1938-39. If to these we add boys reading in the primary classes of secondary schools the total is 2,151,668 against 2,100,496 in the previous year.

The following table shows the proportion of boys in the different primary classes of schools in 1938-39 and in the previous year:—

	1937-38.	1938-39.
Class I	994,443	914,428
Class II	506,160	596,842
Class III	297,203	319,010
Class IV	170,648	179,873
Class V	132,042	141,515
Total ..	21,00,496	21,51,668

The stagnation and wastage in the primary stage are still appalling, but there are signs of improvement. The significant decrease of 80,000 pupils in Class I is more than counterbalanced by the increase of over 90,000 pupils in Class II, and shows that the "Centre of gravity" in these schools is rising. There are also small but welcome increases in the numbers of pupils in the higher classes.

During the year under report a committee was constituted to advise Government concerning the problem of primary education. The first problem to be solved is that of ensuring a supply of teachers who are not only trained for their work, but have the innate capacity to teach efficiently. The following are some of the recommendations of the committee:—

(1) All newly appointed teachers should be matriculates and should be trained.

(2) Primary school teaching should be made a profession with prospects of promotion to Inspectorships as well as Headmasterships.

(3) An additional supply of 6,000 trained teachers per year is required and arrangements should be made accordingly. The training should cover everything that appertains to village life and welfare.

(4) Where possible trained lady teachers should be appointed for primary schools.

The recommendations of the committee are now under the consideration of Government.

4. **Relative progress of Hindus and Muhammadans.**—Classified according to communities there were altogether 955,672 Hindu and 1,176,974 Muhammadan boys in the primary stage in 1938-39 against 933,106 and 1,147,410, respectively, in the previous year.

5. **Expenditure.**—The total cost of maintaining primary schools for Indian boys increased during the year from Rs. 68,46,038 to Rs. 70,03,713. Of this amount Rs. 44,86,464 or 64·1 per cent. was from

Public Funds and Rs. 25,17,249 or 35·9 per cent. from private sources: the percentages in the previous year were 59·5 and 40·5 respectively. The expenditure from Public Funds was made up as follows:—

Year.	Provincial revenues.	District funds.	Municipal funds.	Total.
	Rs.	Rs.	Rs.	Rs.
1937-38	23,57,296	8,03,441	9,09,242	40,69,979
1938-39	27,40,971	7,42,441	10,03,052	44,86,464

6. **Primary schools in Calcutta.**—The number of boys' primary schools in Calcutta rose during the year from 527 to 550 and pupils attending them from 43,452 to 45,443. Of the schools 149 were free primary schools managed by the Corporation of Calcutta. Free and compulsory primary education had been introduced in Ward No. IX of the city, and the Corporation had under consideration an extension of the system to two more wards of the city, Nos. XIII and XXII.

7. **Night and continuation schools.**—Night schools are held in the evening for about a couple of hours daily, and are attended mostly by adults, who cannot attend day schools on account of their occupations. They usually teach the lower primary course. In the year under report there were 1,152 night schools in the Presidency which taught 27,262 pupils.

There are also in Calcutta and Presidency Division night continuation schools of two sorts. One teaches the three R's up to the Primary Standard while in the other are taught some of the major subjects of a middle school course together with a technical subject, usually tailoring, carpentry hat-making, book-binding or type-writing. On the 31st March 1939 there were altogether 337 continuation schools in Bengal which taught 10,747 pupils.

8. **Examinations.**—In the year under report 45,918 boys appeared in the Primary and Maktab Final Examination, and 35,125 passed.

9. **Double-shift system.**—The double-shift system exists in 5 Biss' type schools in the district of Bogra, but it has not been found very satisfactory.

10. **School post offices.**—The number of Primary School teachers who worked as post masters during the year under review was 272 against 268 in the previous year. The remuneration given for this postal work varied from Rs. 5 to Rs. 16 a month.

11. **Primary education in district school board areas.**—During the year 1938-39, two new school boards were established under the Bengal (Rural) Primary Education Act, 1930, in the districts of Tipperah and Faridpur besides the twelve existing School Boards of Mymensingh, Dacca, Chittagong, Noakhali, Pabna, Bogra, Rangpur, Dinajpur, Jalpaiguri, Nadia, Murshidabad and Birbhum, which continued to function during the year.

Besides Mymensingh where the Education Cess continued to be realised, the cess was also imposed and realised in the districts of Dacca and Tipperah where necessary steps were taken for the introduction of

free primary education. The method of operation in Mymensingh, Dacca and Tipperah is given below:—

The lowest class (*i.e.*, Class I, the beginners' class in the new 1938 curriculum) is taught separately from the three other higher classes from 10 a.m. to 12-30 p.m. All teachers come to school at 10 a.m. and are engaged in the work of this class, the pupils of which are divided into as many groups as there are teachers in the school according to the standard of their attainment. The class is dismissed for the day at 12-30 p.m. The teachers then enjoy a recess for half an hour. At 1 p.m. the work of Classes II, III and IV begins and continues till 4 p.m. after which extra-curricular activities for these classes are taken up.

Some of the advantages of this method are—

(1) The majority of the pupils being in the lowest class, the difficulties of accommodation have been considerably reduced.

(2) Better and more effective teaching of the beginners has been made possible. This is perhaps the most noticeable result and is in striking contrast with former conditions in which most attention was paid to the teaching of the higher classes.

(3) Economy in the number of teachers.

(4) As all the children are not confined in the school simultaneously and particularly as the bigger children attend school in the afternoon, the procedure finds favour with parents.

In order to encourage local contribution and supplement the receipts from the Education Cess, an additional Government grant of Rs. 5 lakhs was distributed to the districts of Mymensingh, Dacca and Tippera, the three districts in which the cess was imposed.

12. **Free primary education in municipalities.**—Primary education for boys is already free and compulsory in the Chittagong Municipality. The largest achievement in this sphere during the year was the sanction by Government to a scheme for the introduction of free and compulsory primary education for girls of school-going age in the Chittagong Municipality. Sixteen girls' primary schools are to be improved in the course of two years so that compulsion can be introduced from 1940-41. Pending the introduction of the Primary Education Act of 1930 any extension of Biss' scheme to rural areas has been suspended. But a departure has been made in the district of Midnapur in view of a donation received by the district board for the establishment of a free primary school at Uttar Gobindanagar.

13. **Teachers and their training.**—The teaching of young children is a skilled art, and the training of teachers is one of the most vital problems that confronts the department, for unless trained teachers are available the reorganisation of primary schools will not produce effective results. Steps are being taken for the establishment of training centres (attached to selected high schools) for teachers of primary schools in cess-paying districts in the near future.

The total number of guru and muallim training schools which train teachers of primary schools was 84 at the end of the year under review and the number of students in them was 2,379 against 2,358 in the

previous year. Of these schools 76 were managed by Government, 1 by the Corporation of Calcutta and the rest by private management. With the introduction of the Bengal Rural Primary Education Act of 1930 there has been an increasing demand for admission to these guru training schools.

CHAPTER IV.

Secondary Education.

General.—During the year under review signs of steady improvement in numbers in the sphere of secondary education were noticed. The following figures illustrate the position for the years 1937-38 and 1938-39 in respect of all secondary schools for boys and girls:—

	1937-38.	1938-39.
High English Schools	1,314	1,355
Middle English schools	1,968	2,038
Middle vernacular schools	44	38
Number of pupils	554,416	575,298
Cost of maintenance	Rs. 1,75,29,900	Rs. 1,82,52,674

The figures indicate an increase both in the total number of schools and pupils. As in previous years the numerical decline occurs only in middle vernacular schools.

Secondary Education for Indian Boys.

(The secondary education of Indian girls and of Europeans is dealt with in other chapters.)

2. **Schools and pupils.**—The total number of secondary schools for Indian boys rose during the year from 3,102 to 3,181. High English schools increased from 1,202 to 1,236 and middle English schools from 1,860 to 1,911, while middle vernacular schools fell from 40 to 34. Pupils reading in high schools rose from 317,119 to 322,771 or by 5,652 and those in middle English schools from 190,849 to 202,916 or by 12,067; but the number in middle vernacular schools fell from 3,187 to 2,982 or by 205. The figures for pupils in 1938-39 include 816 girls reading in high schools, 5,266 girls in middle English schools and 260 girls in middle vernacular schools.

3. **Expenditure.**—The total cost of maintaining secondary schools for Indian boys rose during the year under review from Rs. 1,43,79,835 to Rs. 1,48,98,662. Of the total expenditure Rs. 23,39,440 or 15·7 per cent. came from public funds and Rs. 1,25,59,222 or 84·3 per cent. from private sources, as compared with Rs. 22,07,246 or 15·3 per cent. and Rs. 1,21,72,589 or 84·7 per cent. respectively in the previous year. High English schools cost during the period Rs. 1,17,55,222, middle English schools Rs. 31,06,548 and middle vernacular schools Rs. 36,892;

the corresponding amounts in the previous year were Rs. 1,12,76,624, Rs. 30,61,727 and Rs. 44,484 respectively. The expenditure on middle vernacular schools decreased with the decline in their number.

4. **Manual instruction.**—About sixty high and middle schools continued their arrangements for imparting manual instruction to their pupils. Carpentry, weaving, spinning and tailoring were some of the main subjects taught. They are useful as they foster the growth of the creative power latent in the children and help to break the monotony of normal class-room work.

5. **Agricultural education.**—In accordance with the programme of work outlined in the scheme for the introduction of agricultural education in non-Government secondary schools, the monthly allowance of Rs. 10 each payable to the teachers trained in agriculture was renewed in favour of 52 teachers according to the recommendation of the Director of Agriculture, Bengal. The schools which suffered loss on the working of their farms or gardens also received grants up to a maximum of Rs. 100 in the case of a farm and Rs. 20 in the case of a garden. Twenty-one middle English schools opened continuation classes and nine teachers (in three batches) were deputed for training at the Dacca Farm. The schools in which the schemes have been introduced are working fairly well.

6. **School Final Classes (Science Side).**—The Science Course Classes attached to 7 high schools in the Presidency had an enrolment of 169 pupils on 31st March 1939. Out of 75 students who were sent up for the School Final Examination 56 were successful.

Under the new syllabus of the Calcutta University, Elementary Science has been made a compulsory subject of study in the high schools and many schools have made necessary arrangements for teaching it.

7. **Results of Matriculation Examination.**—The number of boys who appeared at the Matriculation Examination of the Calcutta University and the High School Examination of the Dacca Board of Intermediate and Secondary Education was 37,812. Of these 22,525 came out successful. The corresponding numbers in 1938 were 26,204 and 20,582 respectively.

8. **Curriculum.**—The new Matriculation syllabus of the Calcutta University has been introduced in high schools. By this, besides the vernacular being adopted as the medium of instruction except in English, History and Geography have been made compulsory subjects of study. The scheme for introducing vernacular as the medium of instruction in schools under the Board of Intermediate and Secondary Education, Dacca, has been approved by Government and will be given effect to shortly.

9. **Grant-in-aid system.**—The general principles governing the award of grants to secondary schools were the same as in the preceding year, but on account of the widespread economic depression, the rules had to be relaxed in favour of certain schools. Additional allotments were placed at the disposal of the Inspectors of Schools for grants to non-Government secondary schools.

10. **Teachers.**—There were 28,110 male teachers in secondary schools on 31st March 1939. Of them 5,852 were trained against

22,258 untrained. The salaries of teachers serving in the majority of private schools continued to be inadequate and hence they were often compelled to resort to private tuition or other occupations to supplement their income.

11. **Training of teachers.**—The two Government training colleges at Calcutta and Dacca which train English teachers of secondary schools had an enrolment of 182 students on the 31st March 1939. All the students read the B. T. course The cost of upkeep of the two colleges amounted during the year under report to Rs. 92,345 as compared with Rs. 97,047 in 1937-38.

There are also arrangements for the teaching of the B. T. course in St. Xavier's College, Calcutta. This department had an enrolment of 14 students on 31st March 1939.

During the session 1938-39 certain students of the Teachers' Training College, Dacca, who took up educational measurements, carried on the following investigations under the guidance of Professor H. C. Banerji and Mr. Solman Chowdhury, Lecturer of the College:—

(1) Group Tests of Intelligence for Bengali pupils (Classes V-X).

(2) A Study of the Relation between Speed and Accuracy in the Four Fundamentals.

(3) A Memory Test.

(4) Measurements of Achievements in the Four Fundamental Operations of Arithmetic

(5) A Study of the Alternative Methods of Multiplication.

(6) Experiments in curriculum-making.

Out of 314 students who appeared at the B. T. Examination in Bengal 249 came out successful.

The facilities for training have been widened by the University of Calcutta which has started short training courses for teachers in specific subjects, thus supplementing the work of the Government training colleges.

A system has lately been introduced permitting the graduate teachers of secondary schools to appear at the B. T. Examination as private candidates under certain conditions. Some high schools have been selected where graduate teachers working under the supervision of some other trained teachers of the school will be able to take the B. T. Examination of the Calcutta University as non-collegiate students. A sum of Rs. 160 has been sanctioned for each approved school for purchasing books of reference and dealing with methods of teaching. The problem of the dearth of trained teachers in non-Government secondary schools may to some extent be solved by the adoption and steady maintenance of this system.

On the 31st March 1939 there were 4 normal schools in Bengal. These schools are for those intending to become vernacular teachers in secondary schools. The normal schools had 349 pupils on 31st March 1939 and the cost of upkeep of these schools amounted during the year under report to Rs. 1,00,773, nearly the whole of which was paid from provincial revenues. Out of 221 candidates who sat for the examination 192 came out successful.

12. **General.**—The new regulations of the Calcutta University should lead to a general improvement in the quality of training given to the students in the secondary schools. It is feared however that the inadequate financial resources of the schools will prove a great obstacle to an efficient development of the school work according to the new scheme.

The provision of more trained and better paid teachers and more satisfactory equipment of the schools are urgent problems, and the sooner they can be solved the better.

CHAPTER V.

University and College Education.

Calcutta University.—Mr. Syamaprasad Mookerjee, M.A., B.L., Barrister-at-Law, etc., remained as Vice-Chancellor of Calcutta University up till 7th August 1938 when he was succeeded by the Hon'ble Khan Bahadur M. Azizul Huque, C.I.E., B.L., M.L.A., Speaker of the Bengal Legislative Assembly. During the year the following new courses of study were introduced and Regulations framed for them:—

(*i*) Teachers' Training Certificate Examination—General, Science and Geography.

(*ii*) Degree Course in Metallurgy.

(*iii*) Degree Course in Architecture.

The University is also contemplating the introduction of a Degree Course in Technology.

The receipt of a block grant of Rs. 4,85,000 from Government during the year enabled the University to give effect to most of the recommendations, either in full or in a modified form, of the University Organisation Committee appointed by the Senate and approved by Government.

The following table shows the number of students in the University of Calcutta during the last 2 years:—

	1937-38.	1938-39.
In M. A. Classes	1,142	1,452
In M.Sc. Classes	264	260
Under-graduate students ...	232	190
Women students	93	116

2. **Dacca University.**—Dr. R. C. Majumdar, M.A., was Vice-Chancellor of Dacca University during the year. The schemes for the establishment of a Faculty of Agriculture and a Faculty of Medicine made considerable progress in the year under review. The number of students in the University rose from 1,316 to 1,471; of this number 873

(including 73 women students) were reading for Arts degrees, 331 for Science degrees, while 104 were in the Law Department, 143 in the Commerce Department and 20 were engaged in research.

3. **Board of Intermediate and Secondary Education, Dacca.**—The Dacca Board has completed the 18th year of its life. Mr. J. N. Roy, Assistant Inspector of Students' Residences, Dacca, continued to act as Secretary to the Board in addition to his own duties. The cost of maintaining the Board amounted during the year to Rs. 39,688. Excluding the Islamic Intermediate Colleges at Dacca, Chittagong and Serajganj, the number of Intermediate Colleges remained unchanged at 5. Two of these colleges, viz., Dacca Intermediate College and Eden Intermediate College for Girls, were maintained by Government, and the Jagannath Intermediate College was aided.

4. **Colleges.**—The total number of Arts Colleges in Bengal rose during the year from 50 to 51, the increase being due to the inclusion of the Salesian College, which has moved from Shillong to Sonada (Darjeeling). Of the colleges 44 were for men and 7 for women. The enrolment of these colleges increased from 27-978 to 30,687, but the cost of their maintenance fell from Rs. 40,42,303 to Rs. 40,29,072. Of the 44 men's colleges, 10 (including the Islamic Intermediate Colleges) were maintained by Government, 22 received aid from Government and 12 were unaided. The following tables give figures for the enrolment and the cost of upkeep of Arts colleges for men for the last two years:—

5. **Government colleges.**—The number of students reading in Government arts colleges for men rose from 3,842 to 4,199. The cost of upkeep of these colleges fell from Rs. 15,54,322 to Rs. 14,77,495; of this sum Rs. 10,08,468 was contributed from provincial revenues. The system of tutorial supervision over students by college teachers continued to produce satisfactory results.

In the aided colleges the number of students rose from 12,285 to 13,814 and the cost of maintenance from Rs. 14,03,698 to Rs. 14,02,184; of this Rs. 2,40,876 was contributed from provincial revenues.

In the unaided colleges the total number of students rose from 10,590 to 11,168 and the cost of upkeep from Rs. 9,16,354 to Rs. 9,62,214.

CHAPTER VI.

Professional and Technical Education.

Law colleges and classes.—Arrangements for imparting legal education existed, as previously, in three institutions in the Presidency, viz., the University Law College, Calcutta, the Ripon Law College, Calcutta, and the Law Department of the University of Dacca. The number of students reading in the three institutions fell from 1,987 to 1,891; of these 1,525 were Hindus and 326 were Muhammadans. The upkeep of the University Law College, Calcutta, and the Ripon Law College

cost Rs. 1,85,189 as compared with Rs. 1,84,281 in the previous year. (The expenditure incurred for the maintenance of the Law Department of the Dacca University which has not been shown separately in the University Returns is included in the General Tables under the head "Universities".) Out of 656 candidates who appeared at the Final B. L. Examination from the three institutions 476 came out successful.

2. **Medical colleges and schools.**—Higher medical instruction is provided in three institutions, viz., Calcutta Medical College, the Carmichael Medical College, Belgachia, and the School of Tropical Medicine and Hygiene, Calcutta. The three institutions enrolled 1,517 students (including 39 women) on 31st March 1939, compared with 1,521 students (including 28 women) on the corresponding date in the previous year. Of the total number 65 were Europeans and Anglo-Indians, 1,360 were Hindus and 73 were Muhammadans. The cost of maintaining the three institutions rose during the year under review from Rs. 8,64,413 to Rs. 10,46,771. In the Final Examination the three institutions presented altogether 554 students of whom 242 were successful.

As in the previous year, there were 9 recognised medical schools in Bengal attended by 2,606 students (including 65 women) against 2,525 students (including 46 women) in the previous year. The cost of upkeep of these schools amounted during the period to Rs. 6,26,130 against Rs. 6,27,329 in the previous year. Altogether 834 candidates appeared from these schools in the Final Examination and of these 328 were declared successful.

3. **Veterinary College, Belgachia.**—The number of students reading in this college fell during the year from 207 to 204; of this number 119 were Hindus, 58 were Muhammadans and the rest came from other communities. The cost of upkeep of the college rose during the period from Rs. 1,61,078 to Rs. 1,66,280. Out of 201 students who sat for the annual examination 162 were successful.

4. **Bengal Engineering College, Sibpur.**—In the Bengal Engineering College the roll strength rose during the year from 305 to 337, of whom 180 were in the Civil Engineering Department, 40 in the Mechanical Engineering Department, 48 in the Electrical Engineering Department, 16 in the Diploma Classes in Mechanical and Electrical Engineering and Associate Classes in Mechanical Engineering and 53 in the Industrial Department. Of these students, 9 were Anglo-Indians and Europeans, 270 were Hindus, 48 were Muhammadans and the rest came from other communities. The average annual cost per student was Rs. 1,057 of which Rs. 808 was borne by Government. The results of the college in the various examinations held during the year under review are shown below:—

Examination.	Candidates.	Passed.
B.E. (Civil Engineering)	28	27
B.E. (Mechanical Engineering) ..	4	4
B.E. (Electrical Engineering)	3	3
I.E. (Civil Engineering)	67	54

The authorities of the Calcutta University have framed Regulations for a Degree course in Architecture and the Principal, Bengal Engineering College, has been requested to draw up a scheme for the teaching of this subject. The scheme for opening at this college a three years' course leading to a B. Sc. degree in Metallurgy has been administratively approved by Government.

5. Ahsanullah School of Engineering, Dacca.—In the Ahsanullah School of Engineering, Dacca, the roll strength rose during the period from 439 to 447 (145 in the Overseer Classes, 231 in sub-overseer classes and 71 in the Artisan Classes). Of these students 292 were Hindus, 150 were Muhammadans and 5 of other communities. The cost of maintaining the school fell during the period from Rs. 1,46,701 to Rs. 1,36,604 of which Rs. 95,668 came from provincial revenues. The school passed 77 out of 112 in the Overseer Examination and 84 out of 174 in the Sub-Overseer Examination.

The school passed 29 out of 31 students in the Survey Final Examination and 50 out of 54 in the Amin Examination.

7. Art schools.—During the period under review there were 6 art schools in the Presidency, the chief of which was the Government School of Art, Calcutta. Of the five other schools, 3 were in receipt of aid from public funds. The Government School of Art, Calcutta, had 263 students in the various departments against 280 in the previous year. Of the students 245 were Hindus, 10 were Muhammadans and the rest of the other communities. The cost of maintaining the school fell during the period from Rs. 44,464 to Rs. 43,831. Thirty one students passed the Final Examination out of the 35 who sat for it.

8. Commercial education.—Facilities for advanced commercial education were provided, as before, in the two Universities of Calcutta and Dacca and the Commerce Department of the Vidyasagar College, Calcutta. Teaching in I. Com. is imparted by Jagannath Intermediate College, Dacca. Five-hundred and thirty four candidates sat for the B. Com. Examination in the two Universities, and 300 obtained the degree. In the I.A. Examination of the Dacca Board with Commerce as a special subject 146 candidates appeared, of whom 57 were successful.

The number of commercial schools in the province returned on 31st March 1939 was 15 of which one, the Government Commercial Institute, Calcutta, was managed by Government, 2 were aided and the rest unaided. The number of students under training in the Government Commercial Institute, Calcutta, rose from 489 to 553 of whom 488 were Hindus, 62 were Muhammadans. The costs of its maintenance rose during the period from Rs. 55,117 to Rs. 62,117 towards which provincial revenues contributed Rs. 33,275. The number of students who appeared at and passed the Government Commercial Course Final and Special Examinations in 1938 from this institute

and from affiliated institutions and as private candidates is given below:—

Final Examination.

	Number appeared.	Number passed.
Government Commercial Institute ..	128	104

Special Examination.

Government Commercial Institute ..	149	76
Affiliated institutions	368	180

The syllabus of studies in the Day course has been thoroughly recast and brought up to date, and Economics has been included as an independent subject of study. The Day course is steadily gaining in recognition and during the year the Boards of intermediate Education at Dacca and Allahabad recognised the Final Examination of the Government Commercial Institute as equivalent to their Intermediate Examination for the purpose of admission into Degree Classes in Arts and Commerce at the Dacca and Allahabad Universities.

9. Weaving schools.—The weaving schools in Bengal continued, as before, to be controlled by the Director of Industries, Bengal. Weaving was taught in a few secondary schools, but for the most part the training was given in special weaving schools (some of which were peripatetic), and through demonstration parties. The chief of these weaving schools is the Government Weaving Institute, Serampore. The Institute attained the status of a college of textile technology and with a view to making its name answer more appropriately to its functions, it was decided to rename it the Bengal Textile Institute. The higher course was spread over 3 years and the Artisan Course over one year. The Institute had 181 students under training on 31st March 1939 against 196 in the previous year. Twenty-eight students of the higher course passed the Final Diploma Examination. Sixty six artisan students including 8 girls passed the examination at the completion of the course. Nineteen students passed the City and Guilds Examination in various subjects. The cost of maintenance of the institute rose during the year from Rs. 46,152 to Rs. 53,445 of which Rs. 52,425 was contributed from provincial revenues.

10. **Music schools.**—The number of music schools in the Presidency was 8 of which 7 received aid from public funds. In a number of girls' schools music is taught as special subject.

11. **Agricultural schools.**—There were 6 agricultural schools and 2 sericultural schools in the Presidency during the year under report. Of these schools 3 were managed by Government and 4 were aided. These schools had an enrolment of 138 pupils against 87 in the previous year. With regard to the teaching of agriculture in secondary schools some account has been given in Chapter IV of this report.

An institution known as Basanta Kumar Agricultural Institute was established at Rajshahi in 1936 through the munificence of the late Kumar Basanta Kumar Roy of Dighapatia for the purpose of training students in agriculture and derivative industries.

12. **Other technical centres.**—The following senior technical schools which afford facilities for vocational education may be specially mentioned in this report:—

(*i*) The Calcutta Technical School provides for the theoretical training, with laboratory practice, of apprentices in various Engineering and other concerns in and around Calcutta, thus enabling a student to receive a sound theoretical training. The roll strength increased from 294 to 341. The cost of upkeep of the school amounted to Rs. 69,091 towards which provincial revenues contributed Rs. 34,400. In the annual entrance examination 99 candidates came out successful out of 128 registered.

(*ii*) The Kanchrapara Technical School had an enrolment of 60 apprentices on 31st March 1939 against 50 in the previous year. The cost of running the school amounted to Rs 41,044 of which Rs. 37,814 was provided from provincial revenues. Forty-two candidates appeared in different subjects at the Board of Apprenticeship Training Examination held in December 1938 and of these 37 were successful.

(*iii*) The Bengal-Nagpur Technical School, Kharagpur, had 76 students in the year against 72 in the previous year. Of these 76 students 39 were Europeans and Anglo-Indians and 37 Indians. In the Annual Technical Schools Examinations held by the Board of Apprenticeship Training there were 80 candidates for examination in 8 different subjects and 40 passed.

CHAPTER VII.

Education of Indian Girls and Women.

Institutions and pupils.—During the year ending 31st March 1939 the total number of educational institutions of all types and grades meant for Indian girls fell from 17,156 to 14,973 and that of pupils attending them from 560,101 to 503,424. The decrease was chiefly in the primary schools and was due to the policy of concentration and to the encouragement of co-education in the primary stage. Girls reading in girls' schools together with those under instruction in boys' schools numbered 758,188 against 736,692; of these 323,224 were Hindus, 424,041 were Moslems and the rest were of other communities.

2. **Controlling agencies.**—The women inspecting staff of the department consisted of 2 Inspectresses and 12 Assistant Inspectresses of Schools, distributed equally between East and West Bengal.

3. **Collegiate education.** During the year the number of arts colleges for women remained stationary at 7 (including the Women's Section of Vidyasagar College and Asutosh College, Calcutta, each of which is counted as a separate unit); two colleges—Bethune College in Calcutta and Eden Intermediate College, Dacca—are directly managed by Government. The number of students in these colleges

rose from 1,251 to 1,506. Besides these women's colleges there were 619 students in men's colleges and in university classes. The subjoined table shows the enrolment and the cost of upkeep of arts colleges for women :—

*The expenditure incurred for the maintenance of Women's Department of the Asutosh College has not been separately shown in the returns of the college.

Women students are coming in increased numbers to colleges and the demand for higher education among girls is so great that Government have sanctioned the scheme for the establishment of a new college for girls in Calcutta from July 1939 named "The Lady Brabourne College, Calcutta." The work for the extension of accommodation of the Bethune College in the Christ Church buildings is in progress. Arrangements have also been made in Bethune College for teaching Arabic, Persian and Urdu with a view to having this college affiliated in these subjects from the next session. Two State scholarships for Indian Women have been created for advanced studies in the United Kingdom.

Altogether 898 students sat for the Intermediate Examinations 364 for the Bachelor's Degree Examinations and 42 M.A. and M.Sc. Examinations during the year under review, and 559, 247 and 37 were successful.

4. **Secondary schools.**—(1) *High schools.*—The number of high English schools for Indian girls rose in the year under report from 67 to 74. Of these schools 6 are managed by Government, 60 are aided and the rest unaided. The total number of girls reading in high schools increased from 19,656 to 20,571. In the Matriculation Examination held in 1939 1,877 girls out of 3,451 were successful. There is a genuine and growing desire for higher education among women and several boys high schools have opened girls sections with the permission of the Calcutta University. Private girl candidates are appearing in increasing numbers at the different examinations of the Calcutta Universitiy.

The new Matriculation course of the Calcutta University to be introduced from 1940 includes certain special subjects for girls like Cookery, Child Psychology, Domestic Science, Music and Painting.

(*ii*) The number of middle English schools for Indian girls rose from 104 to 123. Girls reading in middle English schools also rose from 16,012 to 18,896. The number of middle vernacular schools for girls, however, remained stationary at 4; these schools taught 705 girls against 668 in the previous year.

High schools for girls cost Rs. 12,41,202 and middle schools Rs. 4,60,792 during the year; of these amounts Rs. 4,39,848 and Rs. 1,80,361 respectively came from public funds.

5. **Primary schools.**—At the close of the year under review the Presidency had 14,126 primary schools for Indian girls as compared with 16,712 in the previous year and the number of girls reading in primary schools fell from 684,262 to 680,622. One of the most important events during the year is the sanction by Government to a scheme for the introduction of free and compulsory primary education for girls of school-going age in the Chittagong Municipality, where primary education for boys is already free and compulsory. Chittagong is the only municipality in the province which has taken steps for making girls' primary education free and compulsory. For the education of peasant girls in remote places, there are 22 peasant girls' primary schools all of which are located in the Presidency Division. Private agencies such as the Society for the Improvement of Backward Classes and Missionary Societies have done most valuable work for the spread of education among Indian girls by maintaining numerous girls' primary schools in the province. Primary schools for Indian girls cost Rs. 15,34,037 during the year and of this amount Rs. 10,80,421 was contributed by public funds.

6. **Special schools.**—On the 31st March 1939 the Presidency had 75 technical, industrial and other special schools for Indian girls, which were attended by 5,532 pupils; the corresponding numbers in the preceding year were 67 and 4,713 respectively. In special schools, girls are taught such arts and crafts as will enable them to earn a living, the training being supplemented by some amount of general knowledge. The technical subjects that are usually taught are needle-work of various kinds, lace-making, embroidery, weaving, spinning and tailoring. The Kalimpong School has acquired a name for itself by its fine lace-making, beautiful embroidery, leather work and useful handicrafts.

7. **Needle-work.**—The quality of needle-work is reported to have improved immensely in schools, and peripatetic needle-work teachers are in great demand in mufassal schools. The Lady Carmichael Needle-work Diploma is a great stimulus making for improvement.

8. **Handwork Exhibition.**—The second annual Handwork Exhibition was held in the premises of the United Missionary Training College, Calcutta. Her Excellency the Lady Brabourne was graciously pleased to perform the opening ceremony on 3rd February 1939. After the Exhibition was declared open, Her Excellency inspected the Exhibition and spoke highly of the handwork done by students under training.

9. **Training of teachers.**—There is no Government training college for the training of women graduates and the needs of the province are very inadequately met by the Training Departments at Scottish Church College and Loreto House, Calcutta. The combined capacity of these

is 49. Three women teachers were also trained at the Teachers' Training College, Dacca.

Training schools which afford facilities to women teachers employed in primary schools and the lower classes of secondary schools work up to two standards—senior and junior. There are 12 of these training schools for women, three of which are maintained by Government, and the number of pupils in them was 374 as compared with 342 pupils in the preceding year. The output of training schools is infinitismal when compared with the need for trained teachers. A refresher course for 25 teachers has been started as an experimental measure in 1939-40 to be attached to the Hindu Female Training School. A number of centres will be opened in the near future, if this proves successful.

The following table shows the number of trained women teachers in high, middle and primary schools:—

	Women teachers.	
	Total number of teachers	Number of trained teachers.
Primary schools	5,109	847
Middle schools	618	309
High schools	773	299

The Advisory Board of Women's Education, Bengal, continued its good work for the improvement of female education.

CHAPTER VIII.

Education of Anglo-Indians and Europeans.

Controlling agency.—During the year under review Dr. H. Thomas continued to work as Inspector of European Schools, Bengal.

2. **Institutions.**—European schools in Bengal are mainly concentrated in important centres like (1) Calcutta, Hooghly and Howrah, (2) Darjeeling, Kurseong and Kalimpong, (3) Asansol, (4) Chittagong, (5) Dacca, and along the different Railway systems. The number of institutions for the education of Anglo-Indians and Europeans fell in the year under review from 68 to 67, the decrease of one school being due to the abolition of the School of Physical Education run by the Young Women's Christian Association, Calcutta. Of these 67 institutions 63 were for general education and 4 for special instruction. The 63 institutions which provide general education include 24 secondary, 20 higher grade, 18 primary, and 1 ungraded schools. The 4 special schools mentioned above are (1) the Dow Hill Training College, Kurseong, (2) the Commercial Classes attached to the Young Women's Christian Association, Calcutta, (3) the Children's House, Kurseong, and (4) the Fendall Home, Calcutta. Three of these institutions, viz., Victoria Boys' School and Dow Hill Girls' School, Kurseong, for general education and Dow Hill Training College,

Kurseong, for the training of school mistresses, are directly managed by Government, the rest are managed by various religious and philanthropic societies and Railway authorities.

3. **Pupils.**—The following table shows the distribution of the European schools of the Presidency according to management together with their roll strength:—

	1937-38.		1938-39.	
	Number of schools.	Number of pupils.	Number of schools.	Number of pupils.
Government	3	336	3	310
Church of England	9	2,046	9	2,044
Church of Rome	30	7,165	30	7,391

Seventh Day Adventist	1	57	1	62
Undenominational	17	1,617	16	1,596
Total ..	68	12,582	67	12,805

The total number of pupils in schools for Anglo-Indians and Europeans thus rose during the year under report by 223. Of the total number of pupils 6,808 were boys and 5,997 were girls. The total number of non-European pupils reading in European schools numbered 3,117, against 3,044 in the previous year; of them 1,165 were Jews, Armenians, Indian Christians and others.

4. **Expenditure.**—The total cost of upkeep of the schools for Anglo-Indians and Europeans amounted during the year under review to Rs. 38,19,615 (including boarding charges of Rs. 10,64,670) as compared with Rs. 36,72,763 in the previous year. The amount was derived from the following sources:—

	1937-38.	1938-39.
	Rs.	Rs.
Provincial revenues	9,49,141	9,60,895
Municipal grants	32,124	28,641
Fees	16,99,107	17,04,047
Other sources	9,92,391	11,26,032
Total ..	36,72,763	38,19,615

It will be noticed that expenditure increased under all the heads except "Municipal grants".

5. **Scholarships.**—The total amount expended for the award of scholarships to pupils in European schools during the year 1938-39 was Rs. 32,725 as compared with Rs. 26,704 in the previous year. This figure represents the amount actually drawn by the pupils, but excludes the scholarships which were awarded in other provinces but paid in Bengal. Altogether 292 scholarships were awarded from provincial revenues against 199 of last year.

6. **Teachers.**—There were 862 teachers employed in European schools on 31st March 1939 as compared with 856 in the previous year. Of the 862 teachers 193 were graduates, 535 (including 127 graduates) were trained and 327 (including 66 graduates) were untrained. Inducement in the shape of increased salary grant is being given for the employment of a larger number of trained and better qualified teachers in schools with a view to increasing their efficiency.

7. **Training of teachers.**—No teacher was sent to the Chelmsford College, Ghoragali, Punjab, for training during 1938-39. Two scholarships were awarded for the training of men teachers at St. Xavier's College, Calcutta.

The Dow Hill Training College, Kurseong, which affords training facilities to European and Anglo-Indian women teachers, enrolled 14 students on the 31st March 1939 as compared with 16 students in the previous year. At the annual examination of the second year class of the college held in November 1938, 6 senior students presented themselves and all were successful.

Domestic Science has now been made compulsory in all European girls' schools in Bengal, but there is no suitable college in Bengal where teachers can be trained in that subject. Arrangements are therefore being made to award suitable scholarships to enable prospective teachers to take their training at the Lady Irwin College, Delhi, for the full course of three years.

8. **Examination.**—The following table shows the results of the various examinations held in 1937-38 and 1938-39:—

9. **Education of subnormal children.**—The Children's House, Kurseong, which adopts special methods of training to mentally and physically defective European and Anglo-Indian children in this Presidency had 26 pupils on the 31st March 1939 as against 28 pupils in the previous year. Stipends amounting to Rs. 2,220 were awarded by the department during the year under review towards the maintenance and education of children living in the House. The institution is inspected by a Board of Visitors appointed by Government for the purpose.

10. **Rescue and rest home for girls.**—The Fendall Home, Calcutta, is a home for destitute European and Anglo-Indian girls who are out of work and in need of rest. Rescue cases are taken in as well. On the 31st March there were 33 girls in residence as compared with 40 girls in the previous year. The Home received a grant of Rs. 960 from Government as compared with Rs. 900 of last year. The total expenditure incurred by the institution amounted to Rs. 14,520 during the year under review.

11. **Trust funds.**—*(i) Sussex Trust.*—The income of the fund was Rs. 33,559-8-4 during the year 1938-39 and the expenditure for the same period was Rs. 27,201-9-10 Six overseas scholars and 30 local scholars profited by the scholarships awarded.

(ii) Doveton Trust.—The total amount of receipts (including the opening balance on the 1st April 1938 and the interest on Government securities accrued during the year) derived from the Doveton Trust Fund was Rs. 10,673-5-11 and the total expenditure during the same period was Rs. 9,110-5. (2) provision of stipends at the Lady Irwin College, New Delhi, for the training of prospective Domestic Science teachers,

(3) opening of an inter-provincial register of teachers seeking employment in European schools throughout India,

(4) proposals regarding the conditions of service of teachers in the European schools in Bengal,

(5) proposal for instituting an All-India Examination of a prevocational nature,

(6) relaxation of the rules relating to the compulsory test in an Indian language in the entrance examinations to the Bengal Civil Services,

(7) proposal to close Dow Hill Training College, Kurseong, and to provide alternative arrangements for the training of teachers, etc.

CHAPTER IX.

Education of Muhammadans and other Special Classes.

Education of Muhammadans: Statistics.—In the year under review the total number of Moslem students reading in all grades of educational institutions for Indians rose from 1,777,880 to 1,829,332. Of the total number 1,405,283 were boys and 424,049 were girls, as compared with 1,284,085 boys and 323,224 girls of the Hindu community returned on 31st March 1939. The proportion of Moslem students to the total number of pupils under instruction at the end of the year was 52·7 per cent., the same as in the previous year. The following table gives figures for the two years 1937-38 and 1938-39 in different grades of institutions:—

	1937-38.		1938-39.	
	Number of Muhammadan students.	Percentage.	Number of Muhammadan students.	Percentage.
Arts colleges	4,941	16·2	6,042	17·4
Professional colleges	635	10·4	729	11·7
High stage	39,049	23·0	40,733	23·1
Middle stage	39,442	25·6	41,931	20·6
Primary stage	15,59,588	55·7	15,80,694	55·3
Special schools	96,339	72·8	115,610	73·1

2. **Special institutions for Muhammadans.**—(*a*) Apart from the ordinary institutions which are open to students of all communities, there are a number of institutions of all grades which offer special facilities for Moslem students. Higher education is offered to Moslem students by Islamia College—a first grade college in Calcutta—the Arabic Department of the Calcutta Madrasah, and three Islamic Intermediate Colleges at Dacca, Chittagong and Serajganj. These Islamic Intermediate Colleges are really institutions with Intermediate Classes attached to high madrasahs and are intended to lead to the course of Islamic Studies at the University of Dacca. The work and examination of these Islamic Intermediate Colleges are controlled by the Board of Intermediate and Secondary Education, Dacca. During the year the College section of the Chittagong Madrasah has been put on a permanent basis, and the scheme of raising the Hooghly Madrasah to the status of an Islamic Intermediate College from July 1939 has been sanctioned by Government. The number of students in the three Islamic Intermediate Colleges rose from 288 to 296 in the year under review. Out of 163 students who appeared at the Islamic Intermediate Examination of 1939, 111 came out successful. One of the three Halls of the Dacca University, the Salimullah Moslem Hall, is also set apart for Moslem students.

(*b*) There are two types of madrasahs in the province—the Reformed type and the old type. Madrasahs of the Reformed type correspond to secondary schools, junior madrasahs to middle English schools and high madrasahs to high English schools. The department

controls the examination of junior madrasahs, while the Board of Intermediate and Secondary Education, Dacca, regulates the curricula and examinations of high madrasahs. The following table gives figures relating to both types of madrasahs:—

		Number of madrasahs.	Number of pupils.	Cost of maintenance.	Cost from public funds.
				Rs.	Rs.
(*a*) High madrasahs	New type	42	8,590	3,79,941	1,99,811
(*b*) Junior madrasahs	New type	597	64,788	10,11,057	3,25,061
(*c*) Senior madrasahs	Old type	80	10,984	3,16,792	1,29,831
(*d*) Junior madrasahs	Old type	86	5,270	45,854	5,147
Total		805	80,632	17,53,644	6,59,850

The old type senior madrasahs are still popular with the orthodox section of the Moslem community. The most important is the Arabic Department of the Calcutta Madrasah. The Government aid to these madrasahs has given an impetus to the growth of such institutions. There is a feeling that the scheme requires overhauling to suit the present requirements of the community.

The examinations of the old type madrasahs are controlled by the Board of Central Madrasah Examination in Calcutta.

(*c*) During the year ending 31st March 1939 the maktabs or secularised primary schools for Moslems fell from 24,388 to 18,959, of which 12,538 were for boys and 6,421 for girls. The number of pupils reading in maktabs fell from 994,300 to 774,639 of whom 527,900 were boys and 246,739 girls. There was a considerable falling off in the number of maktabs and the number of pupils attending these schools. The decrease is due to the fact that a large number of maktabs were converted into free primary schools owing to the policy of centralisation for the introduction of the Bengal Rural Primary Education Act of 1930. The total cost of maintaining these maktabs amounted in the year under report to Rs. 16,62,979 of which Rs. 9,83,964 was met from public funds. These very considerable reductions in number of the maktabs and pupils are the results of the deliberate policy of Government to abolish gradually the distinction between primary school and maktab. The revised curriculum for primary schools has, besides unifying several subjects of study and reducing the length of the course from 5 to 4 years, made provision for religious instruction, and the need for maktabs as separate institutions will end when this curriculum comes into force.

(*d*) Quoran schools are unsecularised maktabs which teach the recitation of the Holy Quoran and a book or two of the rituals of Islam through the medium of Urdu. The number of Quoran schools fell during the year from 143 to 70. The secularisation of Quoran schools and their inclusion among recognised maktabs account for the gradual decline in their number.

(*e*) The number of muallim training schools, which are intended to provide maktab teachers, remained unchanged during the period at 6; all are managed by Government.

3. **Education of Muhammadan girls.**—During the year under review the number of Muhammadan girls reading in all classes of recognised institutions fell from 417,055 to 410,132. Of the total number, 86 were in the arts and professional colleges, 492 were in the high stage, 745 were in the middle stage, 403,715 were in the primary stage and 5,094 were in special schools; the corresponding figures in the previous year were 55, 414, 631, 412,178 and 3,777 respectively. The scheme for the establishment of a new college for Moslem girls in Calcutta was sanctioned by Government in the year under report.

4. **Special facilities.**—To encourage Moslem education in the province Government have provided many facilities, such as reservation of places in Government and aided schools, grants of special scholarships, stipends and of free-studentships.

5. **Chiefs and nobles.**—There is no institution in Bengal which is meant specially for educating the sons of chiefs and nobles. But there are special arrangements for education of the boys of the Nizamat family in the Nawab Bahadur's Institution, Murshidabad, where a separate hostel has been reserved for them. The Nizamat boys live in this special hostel under the direct supervision of the head master of the school. The number of Nizamat boys in residence in the hostel was 26 in the year, and the maintenance of the hostel cost Government Rs. 4,926.

6. **Education of the children of backward classes.**—The extension of the franchise and the reservation of a number of seats for the backward classes (now called the scheduled castes in the Government of India Act) in the Provincial Legislature created great enthusiasm amongst them for higher education. In order to look after the education of the boys and girls of the scheduled caste communities Government have created the post of a Special Officer for scheduled castes education. A non-recurring grant of Rs. 5 lakhs was sanctioned during the year for the spread of education among the backward classes and a committee was appointed to investigate the problem of improving the education of scheduled castes in the province. One State scholarship for the students of the scheduled castes for study abroad has been created by Government. Apart from the recurring provision of Rs. 29,160 which has been sanctioned for scholarships and stipends for students belonging to the scheduled castes, a lump provision of Rs. 19,200 has in addition been allowed for affording them further facilities for education. The number of boys and girls belonging to educationally backward classes under instruction from various types of schools and colleges in Bengal (as indicated below) will give some idea of what progress has been achieved by them in education during the period under report:—

Class of institution.	Boys.	Girls.	Total.
Arts colleges	1,017	12	1,029
Professional colleges	132	2	134
Secondary and primary schools	378,068	75,434	453,502
Special schools	8,984	394	9,378
Unrecognised schools	6,689	1,828	8,517
Total	394,890	77,670	472,560

The corresponding figures on the 31st March 1938 were 367,269, 74,766 and 442,035 respectively. The following paragraphs indicate the educational progress that was noticeable among the children of the educationally backward classes in each division in the Presidency:—

The number of schools chiefly intended for the education of backward classes during the year under review was 5 high English, 48 middle English and 802 primary schools. district of Chittagong Hill Tracts is a backward area inhabited by 15 hill tribes. There were in the Hill Tracts 1 high, 8 middle, 145 primary schools besides 30 Keyang schools. The five Burmese primary schools in Cox's Bazar subdivision which were deprovincialised last year and placed under the management of the District School Board, Chittagong, had 234 pupils on the rolls on 31st March 1939 against 245 in the previous year. The Board of Sonthal Education in the district of Malda still continues, while two other Boards at Dinajpur and Rangpur were abolished with the establishment of the District School Boards in those districts and the grants which had hitherto been placed at the disposal of Sonthal Boards of Education were placed at the disposal of District School Boards to be utilised, as usual, in making special grants to the schools intended for the Sonthals. There were 2 middle English schools in Dinajpur specially meant for Sonthals. Schools chiefly intended for the education of the children of aboriginal races other than Sonthals in the districts of Jalpaiguri and Darjeeling numbered 36 during the period, viz., 3 middle English and 33 primary schools. The upkeep of the schools cost Rs. 58,685 met entirely from provincial revenues.

Boys released from Alipore and Hazaribagh Reformatory Schools were watched over and provided with suitable work by the inspecting staff who also distributed to the released pupils allowances received

from the Superintendents of the Reformatory Schools. There is also an Aftercare Society to watch over the work of the released pupils.

CHAPTER X.

Unrecognised Schools.

The number of unrecognised institutions on 31st March 1939 was 1,738 attended by 85,178 pupils against 1,260 schools with 65,029 pupils in the previous year. Various types of indigenous schools, newly started primary schools and maktabs, undeveloped secondary schools, tols, Quoran schools and Kyangs or Buddhist monastic schools are included in the category of the unrecognised schools. These schools owe their existence in some cases to the enterprise of their founder teachers; but in many cases their origin can be traced to party factions. The standard of teaching and financial condition of most of these schools are far from satisfactory.

CHAPTER XI.

Residence of Students and their Physical and Moral Training.

Hostels.—During the year 1938-39 the number of boarders residing in the hostels and boarding houses attached to educational institutions in the Presidency rose from 35,139 to 36,154. Of the total number of boarders returned on 31st March 1939 30,812 resided in hostels for Indians and 5,342 lived in boarding houses for Anglo-Indians and Europeans. Of the inmates of Indian hostels 27,073 were males and 3,739 were females. Of the Anglo-Indian and European boarders 3,001 were boys and 2,341 were girls.

The Brajamohan College, Barisal, received a capital grant of Rs. 22,163 for repairs of the hostel in the year under review. Feni College and Hetampur College also received Rs. 1,000 each for the improvement of their hostels.

As the number of resident Muslim students exceeded the accommodation available in the Salimullah Muslim Hall of the Dacca University, temporary arrangements were made for the residence of the excess number. The University applied for financial assistance for the construction of an additional Muslim Hall. A sum of Rs. 1,00,000 has been provided for the purpose in the next year's budget.

2. **Messes.**—Messes have continued to be popular with students on account of their cheapness, and absence of strict supervision. The messes (including non-collegiate hostels) administered by the Students' Residence Committee of the Calcutta University had 1,705 inmates during the year ending 31st March 1939. Those (including non-collegiate hostels) under the management of the Board of Intermediate and Secondary Education, Dacca, through the Assistant Inspector of Students' Residences accommodated 690 boarders on the same date.

3. **Physical education.**—The year under report has seen the progress of physical education in many directions. A scheme of youth

welfare, which was under contemplation, took its shape during the year under review and a sum of Rs. 2,50,000 was provided by Government of which Rs. 1,12,972 was actually spent for the purpose during the year. Each district has a District Youth Welfare Council and a trained officer in the form of a District Organiser of Physical Education. The main objects of these Councils are—

(*a*) to provide opportunities for healthy living to the adults, youths and children of the district,

(*b*) to inspire them with the spirit of social service, and

(*c*) to co-ordinate the work of all the agencies working towards these ends.

The organisers in the districts give expert advice and endeavour to arouse the interest of the public in healthy living, and act as Secretaries to the Youth Welfare Council. They also conduct short training courses for teachers of high schools, madrasahs and primary schools. Government sanctioned a sum of Rs. 13,000 for that purpose and about 1,100 teachers were trained during the year.

The Physical Training College, which had carried on as an experimental measure since July 1932, was permanently established as the Bengal College of Physical Education in the year under report with an increased staff. A new feature in the physical education programme was the demonstration tours by the students of the College of Physical Education. They gave demonstration of games and gymnastics at Dacca, Faridpur, Mymensingh, Comilla, Chittagong, Midnapore and Asansol.

A Refresher Course for Physical Instructors took place during the year and was held for a month. It was followed by a physical demonstration at which His Excellency the late Lord Brabourne presided. The demonstration was a great success.

The Inter-School Sports Association made very good progress during the year under review. For the first time it organised an athletic training camp with about 300 schoolboys, who came from all parts of the province.

During the year under review the following amounts were sanctioned by Government for the objects noted below in connection with the improvement of physical education: —

	Rs.
(1) Training of teachers of high schools, middle schools, madrasahs and primary schools	13,000
(2) Grants to inter-school sports associations	10,000
(3) Grants to clubs	26,000
(4) Grants to schools for the purchase of apparatus, acquirement of playing fields, etc.	23,560
(5) Grants to colleges for the employment of trained physical instructors	2,880
(6) Refresher Course for trained Physical Instructors ..	6,100
(7) Peripatetic Lecturers	10,680

The Young Women's Christian Association was paid, as previously, Government grant of Rs. 200 a month for the maintenance of the

service of Physical Directress, who has given valuable help to girls' schools in the matter of organising games and sports.

4. **Boy scouts.**—During the Scout Year 1938 there were in the Presidency altogether 10,306 scouts, 6,428 cubs, 632 rovers, 341 pack officers, 500 troop officers and 152 local association officers. The annual Government grant of Rs. 6,000 was paid to the Boy Scout Association. On the recommendation of the Provincial Organising Secretary, Bengal Boy Scout Association, a sum of Rs. 4,000 was also distributed to Government and non-Government schools for the development of scout movement in these schools.

5. **Girl guides.**—The girl guide movement is reported to have been introduced in most of the important high and middle schools. These girl guides are doing useful work.

6. **Medical inspection.**—The work of medical inspection of the boys in Government and Government-aided schools in Calcutta was conducted by three part-time medical officers. The Students' Welfare Committee of the Calcutta University was also doing extensive work among students in Calcutta. District boards and municipalities at times sent health officers for the medical inspection of schoolboys under their respective jurisdictions. These bodies also sent out sanitary inspectors and vaccinators to inoculate and give advice to teachers and students during epidemics.

7. **Hygiene.**—Hygiene continues to be a compulsory subject for Classes III to VIII. Officers of the Health Departments, both of Government and of some district boards, have been very helpful in delivering lectures to schoolboys on sanitation with the help of lantern slides.

8. **Religious and moral instruction.**—Religious instruction is chiefly imparted in demonstrational schools such as maktabs, madrasahs, tols and mission schools.

In other schools an attempt is made to give instruction through lessons contained in the text-books, and occasional discourses: in some schools there is arrangement for a common prayer just before the commencement of the school work.

9. **National schools.**—The influence of these schools is diminishing and they are now an almost negligible factor in education.

CHAPTER XII.

Conferences and Committees.

The Government of Bengal during the year appointed a committee under the chairmanship of Dr. W. A. Jenkins to advise Government concerning the problems of adult and primary education in Bengal. At the preliminary meeting which was held on August 22nd, 1938, it was agreed that although there were many points of contact between adult and primary education it would be wiser for the committee to deal with these two questions separately. The committee framed a questionnaire for primary education and circulated it to various

authorities for remarks and submitted their recommendations to Government for consideration. The committee's work on adult education was not completed during the year.

The committee of enquiry which was appointed in 1936-37 to examine the possibilities of conducting the Bengal Sanskrit Association on a grant-in-aid basis and to recommend measures for the better working of the Association submitted their final report in July 1938. The matter is now under the consideration of Government.

The Moslem Education Committee which was constituted in 1931 to advise Government on the policy to be adopted for the advancement of Moslem education in Bengal submitted its report in 1935. Some of the recommendations of the committee have been given effect during the year under report.

An informal conference was held at Writers' Buildings, Calcutta, under the presidency of the Director of Public Instruction, Bengal, to consider the future development of the Islamia College, Calcutta. It was decided to work out a scheme for the transfer of the college to a more suitable site outside Calcutta.

Conferences of the higher inspecting officers of the Presidency and Burdwan Divisions were held in Calcutta and Chinsurah to discuss ways and means for the improvement of primary and secondary education and the reorganisation of education in Bengal Conferences of inspecting officers were generally held at district headquarters under the chairmanship of District Inspectors of Schools of the districts concerned. The following were some of the subjects discussed in these conferences:—

(1) Reorganisation and redistribution of primary schools and night continuation schools.

(2) Organisation of teachers' conferences.

(3) Methods of inspection calculated to improve the quality of teaching, etc.

(4) Regular payment of stipends to primary school and maktab teachers.

(5) Lines of co-operation with officers of other departments on the rural development scheme.

(6) Introduction of free primary education.

(7) Stoppage of wastage in the lower forms of primary schools.

The Conferences of Assistant Inspectresses of Schools and Head Mistresses of Government Training Schools and selected High Schools were held in Calcutta and Dacca They were very helpful to those who attended them as they inspired them with new ideals and imbued them with fresh enthusiasm.

Sub-Inspectors of Schools throughout the province held informal meetings for the improvement of primary education.

A conference was held in the Writers' Buildings, Calcutta, in June 1938, in connection with the scheme for the establishment of training centres for primary school teachers.

During the year under review a committee was appointed by Government to investigate the problem of improving the education of scheduled castes in the province.

An Education Day and Exhibition was organised at Asansol in the district of Burdwan. The year also witnessed the organisation of a very useful Educational Exhibition under the management of the Suri Agricultural and Industrial Exhibition.

The Bengal Women's Education League held its thirteenth annual session in Calcutta from 8th to 11th February 1939. Among the resolutions passed by the conference was one that the Bengal Women's Education League should explore ways and means of establishing closer contacts between town and village schools by—

(*a*) forming some kind of fellowship whereby town and village schools may get into touch with one another through correspondence, visits, and in other ways, with a view to the advancement of the villages;

(*b*) encouraging town teachers to establish house-to-house visiting in the vicinity of their schools, with a view to help illiterate children at their doors.

The All-Bengal Primary Teachers' Conference was held in September 1938 in Calcutta. The Hon'ble Chief Minister opened the conference and the Hon'ble Mr. Justice C. C. Biswas presided over it.

The All-Bengal Teachers' Association held its 18th session at Hetampur. The resolutions passed at the meeting dealt among other things with the following important subjects, *e.g.*, restoration of cut in the grants-in-aid to schools, reconstitution of the Provincial Text-Book Committee on democratic principles with elected representatives from educational bodies, deprovincialisation of Government high schools and betterment of the financial position of non-Government high English schools.

CHAPTER XIII.

Text-Book Committee.

During the year under review, the Provincial Text-Book Committee was reconstituted for a period of ten months from 1st September 1938 pending the appointment of a whole-time Reader and Secretary and the introduction of a new set of rules for the working of the committee.

A new primary curriculum was drawn up and published by Government in their Notification No. 683 T.—Edn., dated the 10th June 1938, in order to do away with all distinctions between primary schools and maktabs. The special feature of the curriculum is that it provides for religious instruction for pupils of different communities.

In accordance with the programme sanctioned by Government text-books on certain subjects for secondary schools were called for, for consideration by the committee during the year under report. One thousand eight hundred and seventy-eight books on various subjects were received and a sum of Rs. 21,591 was realised as fees from the authors and publishers. The remuneration paid to reviewers of books amounted to Rs. 14,992. The different sub-committees recommended 931 books to the Director of Public Instruction, Bengal, for final approval for various classes of secondary schools.

CHAPTER XIV.

Education in the Legislative Assembly and the Council.

During the year 1938-39 many educational questions were tabled for discussion in both the chambers of the legislature. There was no serious attempt to affect any drastic reductions in the Education Budget, although a few motions were brought forward proposing small cuts in respect of some items of the budget provision. The March session of the Assembly afforded, as usual, opportunities to members to discuss, among other things, questions relating to the inadequacy of grants to high English schools, the distribution of grants and scholarships, the grant of Rs. 5 lakhs for the education of scheduled castes in Bengal, the introduction of vocational training in secondary schools, the necessity of a capital grant of Rs. 3 lakhs for the spread of education among educationally-backward classes other than the scheduled castes and of appointing a special officer for the purpose, the opening of agricultural classes in primary and secondary schools, the necessity of establishing a training school for the Urdu and Hindi-speaking teachers who are employed in maktabs and primary schools in Calcutta and the introduction of compulsory free primary education without taxation on the agriculturists. At the meeting of the Bengal Legislative Council held on 11th August 1938 the following resolution was moved by Mr. Nur Ahmed:—"I beg to move that this Council is of opinion that a sum of twenty-five lakhs of rupees, within a course of two and a half years, be set apart in addition to present annual allotment sanctioned for Moslem education in all its branches." The following may be mentioned as illustrative of the type of subject matter of the questions asked: educational regeneration of the Buddhist community, representation of scheduled castes in the Dacca University Court, suspension of collection of education cess, dual control of educational institutions by the Executive and Education Department of Government, financial position of secondary schools in Mymensingh. It was evident that the members continued to take a lively interest in the policy and administration of the Education Department.

Dacca, the 31st July 1940.

First Forecast of the Cotton Crops of Bengal, 1940-41.

(*Note.*—On an average of the five years ending 1938-39, the area under cotton in the territories in Bengal to which this forecast relates has represented some 0·2 per cent. and that in the Bengal States some 0·1 per cent. of the total area under cotton in India.)

There are two crops—early and late. The early crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts. The late crop is grown in Bankura and Midnapore.

Character of the season.—In Bankura the weather was not favourable at the time of sowing; elsewhere conditions were fairly satisfactory on the whole

Area sown.—The area sown is reported to be 107,078 acres this year as against 92,405 acres (revised) in the corresponding forecast of last year. The large increase in area is due to revision of estimate in the Chittagong Hill Tracts.

3. The Officer Commanding the forces engaged in any such practice may, within the said area or specified part thereof, declare any area to be a danger zone and thereupon the Collector shall, on application made to him by such officer, prohibit the entry into and secure and remove from such danger zone of all persons and domestic animals during the times when the discharge of lethal missiles is taking place or there is danger to life or health. To enable land being used for field firing and artillery practice in such manner as to secure the public against danger and to enable such practice being carried out without interference and with the minimum inconvenience to inhabitants of the area affected, the Collector shall take the action prescribed in this behalf by rules made under section 13 of the said Act.

4. Compensation shall be payable for any damage to persons or property or interference with rights or privileges arising from such field firing and artillery practice including expenses reasonably incurred in protecting person, property, rights and privileges. Such compensation shall include compensation for exclusion or removal from any place declared

to be a danger zone of persons or domestic animals and also compensation for any loss of employment or deterioration of crops resulting from any such exclusion or removal.

6. The compensation for exclusion or removal from any area declared to be a danger zone will be disbursed by such Revenue Officer, at not less than the minimum rates prescribed by rules made under section 13 of the said Act, before the exclusion or removal is enforced.

7. All claims for compensation other than that referred to in paragraph 6 shall be made to the Revenue Officer after the field firing and artillery practice is over at a place in the locality to be selected by him and to be previously notified by him as the place at which such claims will be received.

8. The Revenue Officer shall consider all claims for compensation and determine, on local investigation and where possible after hearing the claimant, the amount of compensation, if any, which shall be awarded in each case, and shall disburse on the spot to the claimant the compensation so determined as payable.

9. Any claimant dissatisfied with a refusal of the Revenue Officer to award him compensation or with the amount of compensation awarded to him by the Revenue Officer, may, at any time within fifteen days from the communication to him of the decision of the Revenue Officer, give notice to the Revenue Officer of his intention to appeal against the decision. Where any such notice has been given the Collector of 24-Parganas shall constitute a commission consisting of himself as Chairman, a person nominated by the Officer Commanding the forces engaged in such practice and two persons nominated by the district board of 24-Parganas and the commission shall decide all appeals of which notice has been given. The decision of the commission shall be final and no suit shall lie in any civil court in respect of any matter decided by the commission. Every appeal against the decision of the Revenue Officer shall be preferred in writing and shall accompany the notice to be given to the Revenue Officer of the intention to appeal. Appeals preferred after the expiry of the period for the giving of such notice shall not be entertained.

10. No fee shall be charged in connection with any claim, notice, appeal, application of document filed before the Revenue Officer, Collector or the commission.
